Re:Written

THIS YEAR WAS A BIG YEAR FOR MANSFIELD UNIVERISTY, AND WRITTEN WITHIN THE PAGES TO FOLLOW ARE THE STORIES OF THE BIG EVENTS, MAJOR SUCCESSES AND GROWTH FOR OUR SCHOOL. PERCHED HIGH UP ON THE EASTERN HILL. AS WE SEND YET ANOTHER CLASS OF LEADERS INTO THE WORLD, TO MAKE A DIFFERENCE WHEREVER THEIR PATHS TAKE THEM.

**CONGRATULATIONS AND
GOOD LUCK CLASS OF 2015.**

The Carontawan

RE:INVENTED

Re:Designed

Re:Imagined

Carontawan (Kär-ön-tá-wn) Attributed to Native American origins, meaning Little Town on the Hill, it is more than just a great descriptor of Mansfield. It is the yearly record of the people, events, pictures, and stories that shape our University. However, since 1989, the Carontawan Yearbook has not been cataloging our stories, or capturing the events of MU students, but that is all about to change. It is time to clear a space on bookshelves everywhere, because for the first time in 25 years, students at Mansfield University have pulled together to revive this publication. With such a rich past at Mansfield University, we knew it would be a struggle to bring back the publication and make it exciting again. In the generation of social media, we understood that our book had to be just as technologically savvy as we are. From humble beginnings as the Mansfield Catalog in the late 1800's, to the Carontawan Yearbook in 1918, we wanted to reinvent the next generation of the Carontawan. So this year Mansfield University and the Carontawan Yearbook staff are proud to introduce the Revived Carontawan, it is reinvented, and completely reimagined. Keeping the same historic name, and using a design theme from the 1983 Carontawan publication, among many other borrowed elements, we wanted to highlight on the Carontawan's rich history at Mansfield. This effort has been a herculean task, over two years in the making, and we could not be where we are today without the students, Alumni Association, University officials, and Student Government Association, to whom we say thank you.

Re:Vived Re:Designed

Inspired by the 1952 Carontawan, the interlocking bars theme was borrowed for the 2015 publication. The theme is carried throughout the book, and hints on the predrawn lines left behind by the publications rich past and our vision to color outside of them and produce something that represents us, our school, and our devoted spirit to capturing the stories of Mansfield University for generations to come. The book fetures an RE theme, stemming from the concept of the REvival, REimagination, and the REturn of the Carontawan, a book whose rich past we hoped to capture and preserve.

Re:Imagined

With no template to pull from, our direction was our imagination, we completely REimagined and REvamped the book. The book is laid out in a chronological order for the first time; making it more like a story and less like the catalog of the past.

RE:INVENTED

25 years ago, was the last time the word Carontawan rolled across a printing press. With this in mind, we knew we would have to make the Carontawan ours, and make it a part of the digital age. So in addition to a purchasable hardcopy book, the Carontawan also features a digital picture, and video archive accessible to absolutely everyone. Using our free Replay-it App through Jostens®. Our Replay-it users helped us tell Mansfield's stories by uploading pictures on the time capsule and published in this book. In addition to the Replay-it time capsule, the book also features scanable QR codes to connect you to videos, that make the pages and stories come to life.

Blast From the Past

Alumni Arrive, Ready to Socialize

Mansfield alum were treated to a picnic from the Alumni Association. The Spirit and the Pride performed for the Alums before heading down to Van Norman Field for their Homecoming Pre-game show.

All shined up, these Alumni volunteer their time, and their cars. these alumni showed up early on the brisk fall morning to present the 2014 homecoming court in the Homecoming Parade.

Pictured above, Mansfield University students James Scarantino (senior) and Sara Schwartz (freshman) dedicate their time to help sign alumnis into the weekend program.

Visiting Mansfield is a great time for the Alumni to meet up and reminisce. Looking through the Alumni Association's collection of yearbooks with current students is a favorite past time for most.

That Old School Spirit...

The Mansfield University experience does not end as soon as a student dons their cap and gown and walks across the stage to receive the fruit of their labor. Once a student graduates, they are automatically inducted into MUAA (Mansfield University Alumni Association). The purpose of the association is to foster a sense of community and friendship between the alums as well as create a lasting bond between the graduate and their alma mater. MUAA's events include meets at various locations around the country as well as "Alumni Weekend", a chance for alumni to revisit the campus and watch it grow and evolve with the changing times.

*"Old Mansfield high
upon the eastern hills!"*

Mansfield welcomes Alumni back on Homecoming and with various events throughout the year.

Alumni Weekend

The experience included learning how to bake fresh bread from available resources.

Group leader and trip organizer Daniel Teodoro plays guitar to pass the time on a bus ride.

Over and Above Mansfield Students volunteer in South America

This summer, a group of students traveled to South America to help a community of local inhabitants. Mansfield University students Daniel Teodoro, Jason White, and foreign exchange student, Fiona Wolzak, were part of this group. The entire trip was organized by Daniel, and was named the "Emana Experience." Its unique name, "Stand for Energia Humana,"

roughly translates to "Human Energy."

Projects during the trip included mapping the island, cleaning the community, and empowering women to help improve the local economy. Daniel went on to say that "despite being an organizer for the Emana trip to isla Tasajera, I prepared myself to be surprised. I left knowing that I was not in control of the situation, that whatever was going to happen, it was going to be real."

Yoga was encouraged every morning.

Learn more about Emana Experience.

Fiona Walzak "As soon as we arrived on the Island with our luggage and other stuff, we felt immediately very welcome in this community...It was great to experience a special bond with every member of the group...being on the Island was an experience that I will never forget."

"I discovered that when you organize an event where people are aligned on a single vision, people are willing to learn from each other and understand each other and ourselves. I am the luckiest one to be able to host amazing people."

Daniel Teodoro

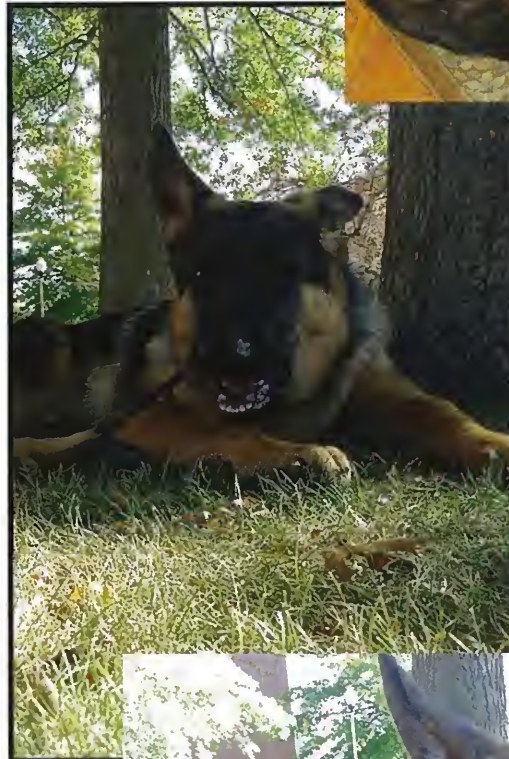

Dog Days of Summer

Mansfield's Mountie

While we were all relaxing during summer break, Mansfield University's President and his family made an addition to the University's family tree.

Meet Mountie, Mansfield's beloved second mascot. Mountie can be seen taking the first lady on a walk around the university campus, saying hi to students as they pass him by, even during the coldest days. Mountie is widely loved by both faculty and students. He was born and bred in Germany, which makes him a pure German Shepherd, but don't let that fool you because he's just as proud to be a Mountie as we are. Next time you see him on campus, or in the presidents house during a party, don't be afraid to stop and say hello with a nice ear scratch or some petting.

To the right, Mountie enjoys the attention of students and faculty at the Holiday Open House.

To the left, Mountie relaxes under a tree after playing with students on campus.

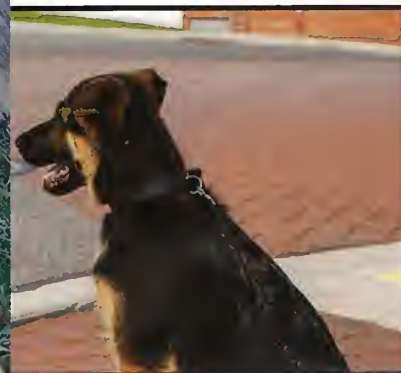

Check out what Mountie is up to in *The Mountie Chronicles*.

To the left, Mountie chills out in the shade during a warm summer day.

Below, a young little mountie was beginning to find his way around campus, arriving just weeks before the start of the fall 2014 semester

Below, student Heather Thomas plays with Mountie.

*to the corners of our
campus, our state, our
country and our globe.*

Students from Mansfield were not still all summer, although many took the opportunity to work. Students from Mansfield were traveling the world, touring Europe performing vocal music and traveling though Belize. Other students stayed back in the states, working all over the nation in internships in the fields of biology, music, psychology, business, and public relations among many. students from MU did not stay still, while some did find opportunities to rest from their studies. Alumni weekend and visitations kept MU students on campus. As students were busy building contacts and contributing to their fields, the first family of Mansfield was settling in, and helping the newest member of their family do the same. His name is Mountie, and this summer he made the brave trip from Germany to join the Hendricks family. He was immediately adopted into the mansfield student body. In a summer of

snap chats, selfies and hashtags, we all grew a little more as a family and as students of Mansfield University.

*Internships,
across the state,
and across the
country,
providing
life-changing
experiences.*

While many students took to the sandy beaches, some students were expanding their horizons and taking classes that are best taught in the heat of summer. One of those is Dr. Jennifer Demchak's

Wetland 101 course, a course that shows the expanding direction that the Geography (now Geoscience) department began taking in recent years. The course focuses on a full scale approach to assessing and identifying wetlands. This course was just one of many that was offered on campus and online through Mansfield the summer of 2014.

Classes, Internships, Vacations.

A chance to relax between intense semesters

Tropical Jungle, Ancient Ruins, and 2 weeks of amazing Opportunities

When Summer learning leaves the classroom.

Belize

Drs. Jeff Bosworth and Jonathan C. Rothermel, accompanied 14 Mansfield University students for a two-week trip to Belize. Students got to experience new environments, animals, and cultures. In addition to experiencing amazing ruins that predate our recorded time. Dr. destinations included the famous Altun Ha, Lamanai, the high temple, Xunantunich, the Belize Zoo, the Iguana project, a jungle tour and zip lining. The trip also included stops to Belize University, the Parliament building and small towns along the way. The trip could not be complete without visiting the beautiful beaches of Caye Caulker, where students had the opportunity to snorkel and relax in the sun.

2014

Protests arise in Ferguson, Missouri revolving an altercation between officer Darren Wilson and the death of 18-year-old Micheal Brown.

Let's Move Around

Freshman students moved into the new dorms

Freshman students braced themselves for move in day. They brought along many items to make the dorms their new home, including guitars, cellos, and household goods. Along with moving in, student participated in a meet and greet.

This is **WAY** too New
Freshman explore the
new campus meeting
new people and enjoying
the food.

Taking a break from moving their belongings into their rooms, students moved about the quad. It was the first time many members of the freshman class had met each other. The day was complete with a picnic lunch and class photo in front of North Hall.

We're So Fresh

The incoming class of 2018 formed up for the biggest group photo of the weekend on the Elliot lawn.

The New-Student Welcome began with the MU Move-in Crew aiding the incoming class with moving into their new home. This was followed by dinner and welcome ceremonies, as well as a block party outside of Hickory Hall. The next included academic department meetings, convocation, an outdoor picnic, and the Mountie Carnival with SKY FALL (allowing students to jump safely and experience a thrill). The weekend continued with various events including: ventriloquists and comedians, a photo scavenger hunt, a casino game night, a community service event, a ghost story told in North Hall, and an organization fair. The transition was made easier with these various events and opportunities. The weekend concluded with closing ceremonies and a presentation from Mike Green about college life choices.

New Student Welcome

The Dj Dance Party was Held in Fall 2015 as a cooperative event between Alpha Kappa Lamda and the Student Government Association. The event featured thousands of watts of lighting effects and amplified music beyond compare. it was a great welcome to the freshman class and all other students, and a great opportunity to meet and mingle in the first weeks of school.

Dj Turn it UP!!

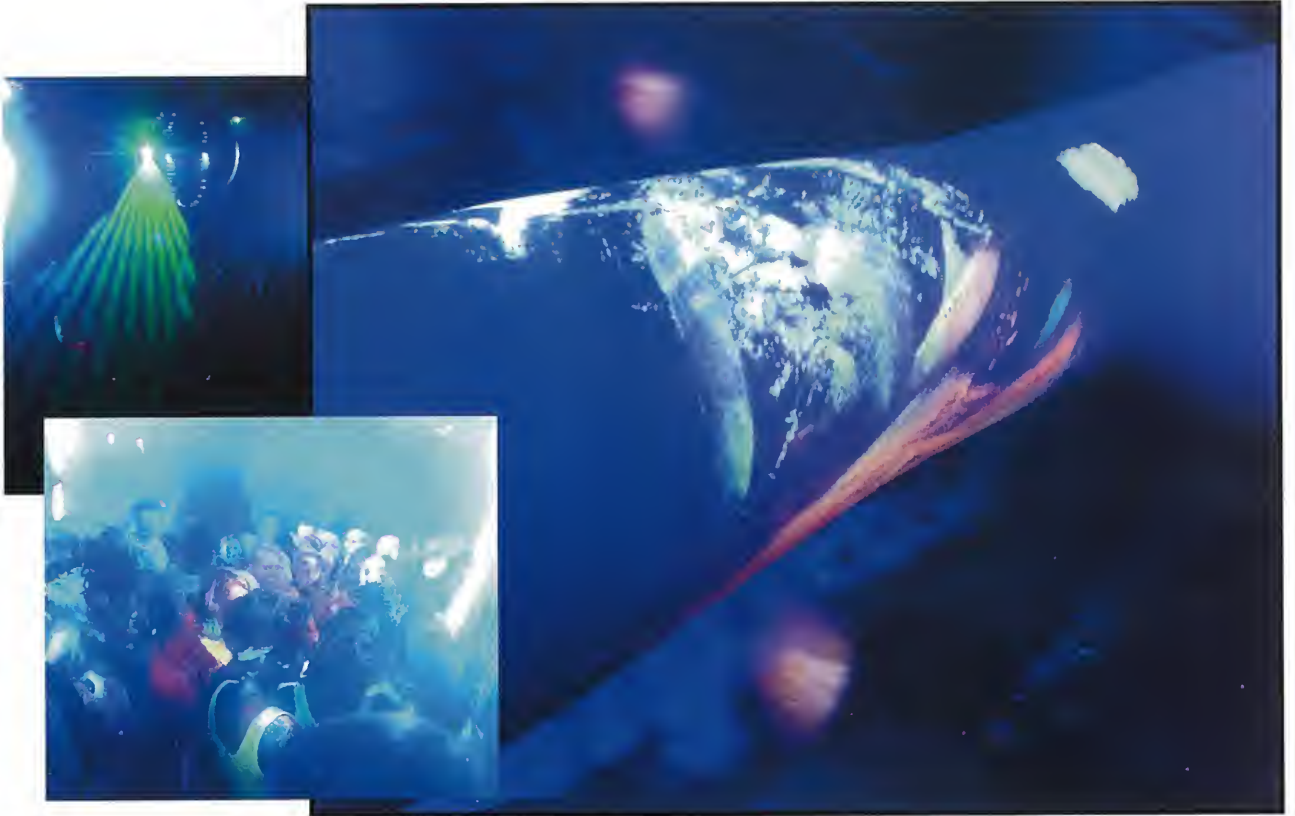

speakers and light systems were brought to make the event like nothing else.

The Variety of the HUT

*Providing Mansfield University Students with
Fun Social and Cultural events multiple days of the week!*

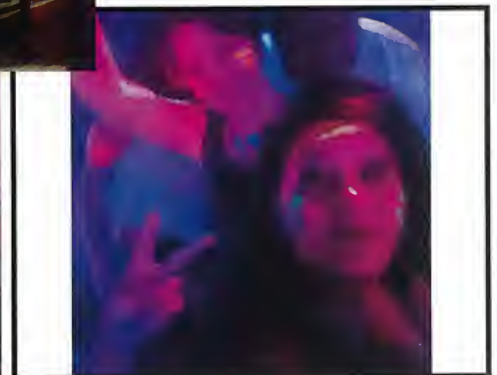

The Hut hosts a variety of acts from popular touring groups, to local talent. Each week the Hut hosts local musicians, comedians, and other talented MU students at open Mic night. Open Mic night has given experience and rise to some bands and performance groups at Mansfield. These open mic night performances provided exposure nad experience, which brought forth the greatest talent and bright futures these groups are now enjoying. The Hut has had some minor changes and accomodations over the past, the most recent being the addition of a snack area in the upper area during 2014. The Hut also hosts events like football watching parties for the Superbowl and dances throughout the year. MU students frequent the Hut for hosted events such as formal dances, saturday night dances, and musical performances on the Hut's very own stage since 1969.

Equipt with glow paint, black lights and hundreds of students the event was a sensation for everyone! It was an experience like none other at MU! A great kick off to 2015!

Experiences for performers of all types.

Tiny Thoughts was one of the newest MU student bands to emerge on the Hut stage during 2015.

Light Up Mansfield Again!

LUMA 2014

Senior Quarterback, Mike Maniscalco, goes back to pass the ball downfield.

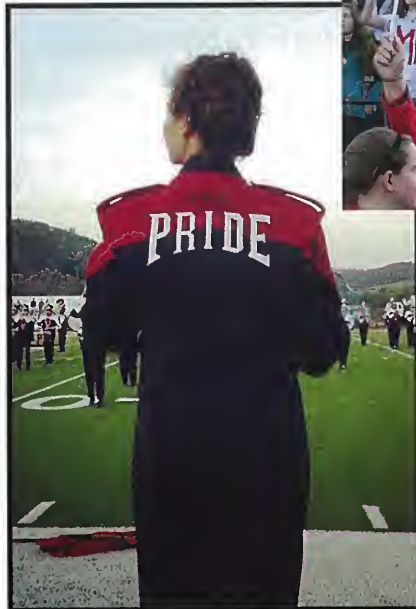

Chancellor and Mrs. Brogan flip the switch to turn on the lights.

Mansfield University Cheerleaders lift the morale of the team and spectators.

Reliving the Past

This year's sprint football season opened with the Mountaineers hosting the University of Pennsylvania for the third home, night football game in Mansfield University's history. L.U.M.A stands for Light Up Mansfield Again. Being the first university to ever have a night football game, Mansfield hosted this event with pride. Pictured above are Chancellor and Mrs. Brogan flipping the switch to light the field for another night of football. Although we didn't walk away with a victory, the Mounties kept their opponents to a close and competitive game, leaving

Spectators of the game honored Corporal Bryon Dickson with a blue light vigil.

Football, Fireworks, and Music **Let's Go Mounties!**

Morgan Feick, Derek Coston, Tacie Tews, Alex Taylor, and Andrew Putt in the sousaphone section stand with the band for the start of LUMA 2014.

Pictured above are President Hendricks and Chancellor and Mrs. Brogran.

Excited to light it up again, Dylan Krall and Sarah Donegan, sport their 2015 LUMA t-shirts.

the score 13-14. The constantly close score kept students, visiting family, and local community members on the edge of their seats and cheering for the home team at every down. Before the Sprint Football game, the field hosted Women's Field Hockey and Women's Soccer matches.

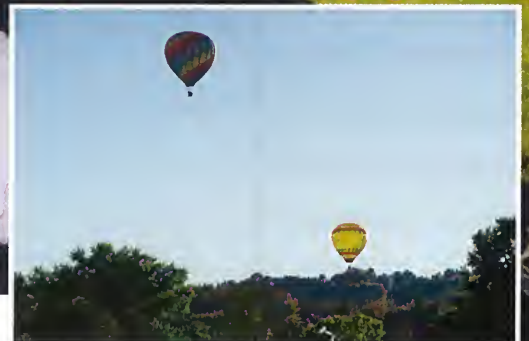

Homecoming

Hundreds of people gather along Main Street to watch teams, clubs, and organizations march in the annual Homecoming parade. Each group displays a creative banner in hopes of placing in the banner contest.

Alumni, Families, and students all gather to see the annual crowning of the Homecoming court at the football game.

One 'Fabulous' Weekend

Every year, Mansfield celebrates Fabulous 1890's Weekend in conjunction with the football team's first homecoming game. This year, Mansfield and Navy went head-to-head in an afternoon game before the re-creation of the World's first night football game. Hundreds of students, family, and alumni gathered throughout town for this lively celebration.

The Spirit & The Pride's drumline keeping the beat during a performance.

Performing on the track, the band plays the National Anthem and Georgia on My Mind for the Mansfield spectators.

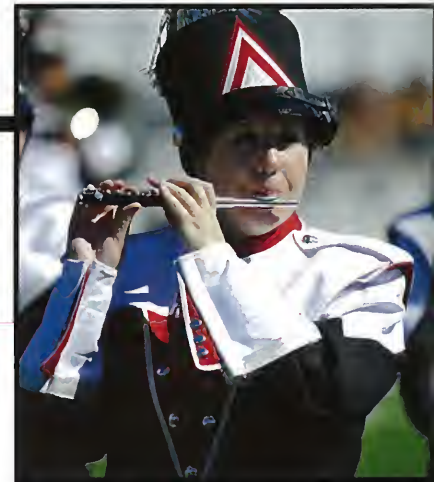

Striking Up the Band...

"Without music, life would be a mistake." -Freidrich Nietzsche

Traversing across Pennsylvania and leaving a lasting impression on the countless high school students the band has performed for, The Spirit & the Pride remain one of the highlights of Mansfield University's student life. The band's open admission policy ensures that every student who is interested in further honing their craft is able to in an environment that not only breeds brotherhood between its members, but nurtures their musical talents as well. The yearly culmination of the band's efforts is a performance featuring music penned by the Director of Bands, Dr. Adam F. Brennan. Each year bares a different theme and original music. This year's theme was "Pandora's Box", based on a mystical object from Greek mythology that, when opened by Pandora, released all of the evils that are now present in the world. The band did not keep their performance in Mansfield this season. The show has been seen by thousands of spectators, including the Tournament of Bands Atlantic Coast Championships and in Allentown where they performed with bands from all over the North East.

Check out the birds eye video of a selection from Pandora's Box.

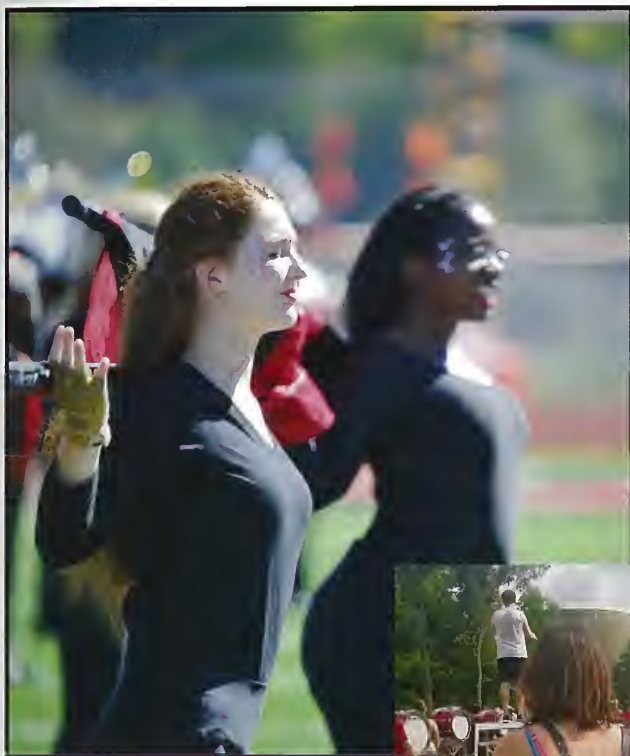

Melissa Short

"My experience was like no other. I am so grateful to be a member of the band for my third year. This year was a bit different, as I was a member of the staff. Getting to see the rest of the band grow was an amazing experience that I will never forget. My favorite event was, and always will be, Allentown. I went to this event every year of high school. Finally getting to be on the other side of the performance was an amazing experience as well."

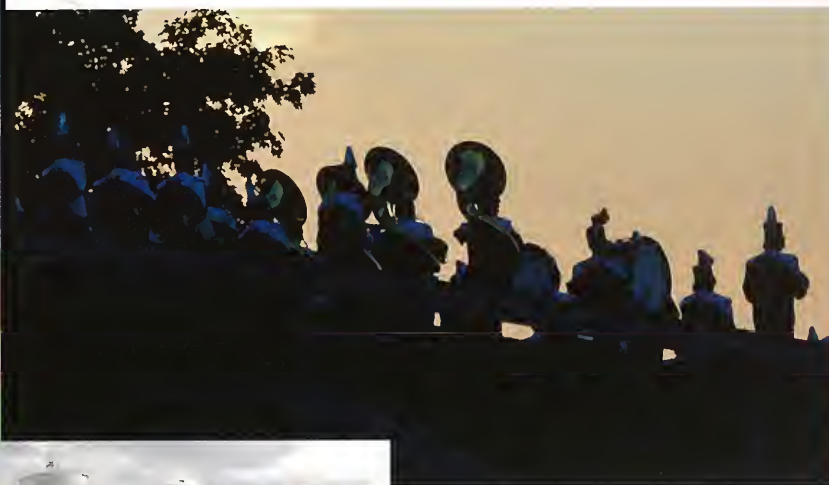

The Spirit & The Pride in the stands during LUMA (Light Up Mansfield). The LUMA football game is a part of Mansfield University's "Friends and Family Weekend", and last year's event was the first of its kind in 121 years.

And This One Time At Band Camp... *Hard Work Pays Off*

Colorguard members Jess Cowan and Shanice Brandon perform their routine for Pandoras Box.

The low brass section, and the MU drumline performing in the sunset.

Not content to spend the last week of summer being lazy at home, Mansfield University's band practices music for the upcoming semester to get a head start.

The Running Dead!

Grab Your Nerf Guns

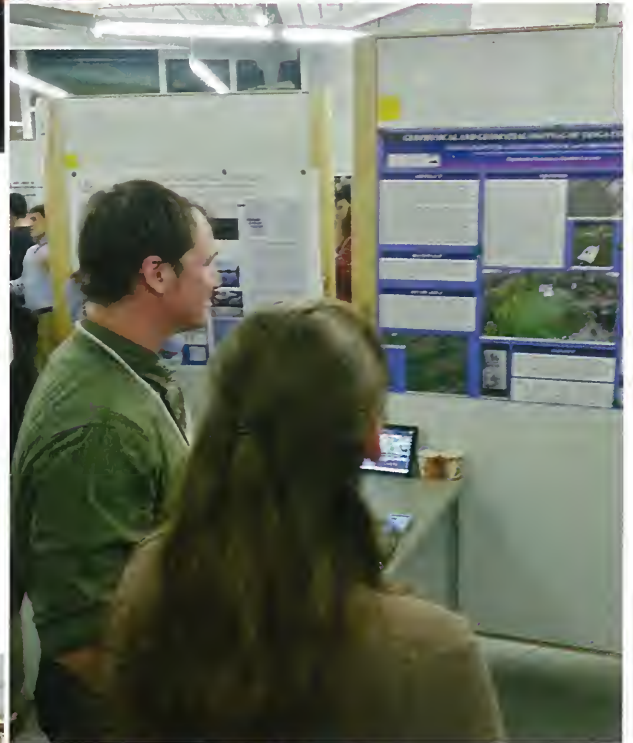

Campus was plagued with a zombie outbreak after a water pipe broke on the closed Straughn Drive, the Mansfield University Nerf Club grabbed their gear and began helping students combat the Zombie Horde. Over 100 students helped fight the good fight but ultimately failed., the extraction event was held on the Van Norman football field at midnight on the final day of the game.

Nerf Club we need
your help!

COPLAC

COPLAC

Council of Public Liberal Arts College

Mansfield University was selected to join COPLAC this year, COPLAC stands for Council of Public Liberaal Arts Colleges, Mansfield University students a conference which also featured the Mansfield University Horn Club performing!

Going Long

Sprint Football team takes the field

Below, Eddie Keitel takes down an opponent during the game against the Navy.

Mansfield University takes pride in its Sprint Football team. Due to the weight requirement for the sport, the game is very fast paced and competitive.

Within our league, we play other teams that include Cornell University,

The Mounties watch from the sidelines while their teammates get ready for the next play.

Princeton University, Franklin Pierce University, the Army, Post University, the Navy, and the University of Pennsylvania. This season, the Mounties rushed for over 400 yards and passed for over 1,800 yards, which more than doubles than that of our opponents this season. Our passing game resulted in 16 touchdowns throughout the season, as opposed to our opponenet's 5, and this equates to 96 and 30 points respectivley. Mansfield has been participating in Sprint Football since 2009, and the sport continues to bring out the spirit and pride of the Mountie Nation.

Pictured left to right, showing their Mountie pride, are Sam Grace, Caitlyn Daly, Colton Long, Jesse Dagutis, Jake Rubin, Nick Semanco, Charley Page, Ariel Funke, Mark Weisen, and David Lewis.

Below, the Lady Mounties huddle up to plan their formations.

To the right, Kelsey Chapman dribbles the ball past her opponenet.

Sarah Nezelek, the goal keeper, braces for a shot on the goal.

Until the final whistle

Womens Soccer team powers through season

the Lady Mounties have been playing since 2002, for a total of 13 seasons within PSAC, and they are coached by Tim Dempsey. In the division that Mansfield University participates in, we compete with Kutztown University, California University of Pennsylvania, Edinboro University, Bloomsburg University, Lock Haven University, Clarion University, Indiana University of Pennsylvania, Seton Hill University, University of Pittsburgh at Johnstown, Millersville University, Shippensburg University,

East Stroudsburg University, West Chester University, Gannon University, and Mercyhurst University. The Lady Mounties set an impressive record this season by hosting over 1,300 students and guests, and this outdid our opponents by over 300 guests. We finished out the season 3-13-1, but the team played to the final second and kept things close for the majority of their season. With a growing fan base in the US, the Lady Mounties can look forward to breaking more records in the near future.

Eyes in the Sky

Students soar above the rest

At the beginning of the 2014 Fall semester, the Geoscience Department was given funding from The Institute of Science and the Environment to purchase a DJI Vision 2+,

more commonly known as, a drone. Several students have learned to pilot the UAV (Unmanned Aerial Vehicle). Recently, after a UAV crash landed in the White House lawn,

the Federal Air Administration released regulations for commercial and recreational flying. The UAV houses a built in 14 megapixel camera, beating out the iPhone 6S camera. Although it is not recommended the drone can fly at speeds around 15 meters per second.

Check out our eyes in the sky here.

All Hands on Deck

Students and faculty show support for assault victims

Carry That Weight

RHA members pose with the finished mattress. This Mattress was carried across campus and signed by supportive students

Below, Dr. Bridges, Dean of students, signs the mattress to show his support.

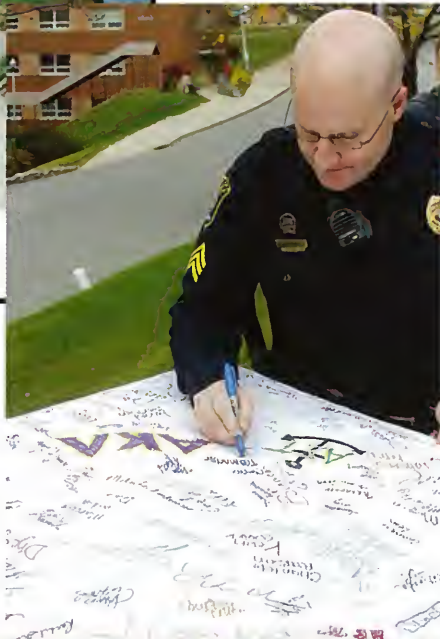

Above, President Hendricks shows his support for victims of assault.

Learn more about Carry That Weight here.

To the left, a Mansfield University Police Officer joins the nation in support of assault victims.

Below, students showing their support by symbolically signing the mattress.

Mansfield University's RHA took part in an activity that spans the nation. The activity is called "Carry that Weight" and is the offspring of a graphic arts exhibition created by Columbia University student, Emma Sulkowicz. Emma, along with two other students filed sexual assault claims against a male student who lived on the campus. When he was not found guilty everytime, Emma symbolically showed the effect of his

actions by carrying the mattress that it happened on around to every place she had to go. She was not allowed to ask for help carrying the burden, but students around her began to offer it. The project swept through schools across the nation, and groups began to carry mattresses on campuses such as Penn State, University of Michigan, and Mansfield University.

Avery Yoder dribbles the ball down the field while Laura Lawson, who has had 239 saves this season, defends the goal.

Sweeping the Field

Season in a Wrap

Even though the field hockey team did not have a winning season, they had many memorable games. According to player Kayla Grunza, the game against Bloomsburg University on October 4, 2014 was the most memorable. They scored two goals within a five-minute span. It was one of their most intense games and from it, they learned that with persistence and teamwork, they can score and pull through in the end. As a team, they never gave up and instead, focused on improving their skills.

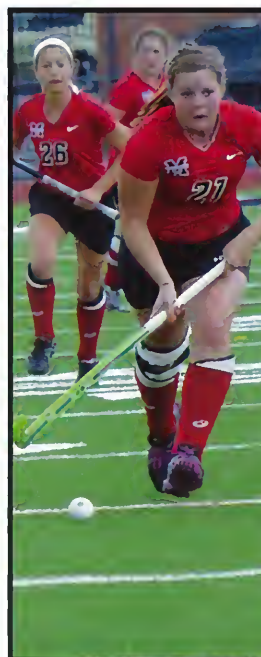

Find Your Inner Goal.

Girls field hockey practiced for their upcoming games.

With determination on their face, Lacey Croasdale (right) and Nikita Grove (left) stare down the opponent as they move down the field with the ball.

At left, Sam Klimekoski, a freshmen, dodges a defender and moves towards the opposing team's goal, her teammates trailing behind her in support.

Sophomore: Emily Willard, hits up turf during a field hockey game. She struck the ball so hard that the turf kicked up and the ball flew down the field.

Cross Country

We Aim To Run.

The mens cross country teams race across a bridge spanning over a tioga river tributary at Lambs Creek.

During the cross country 5k race. The cross country runners faced many challenges in beating their opposing team.

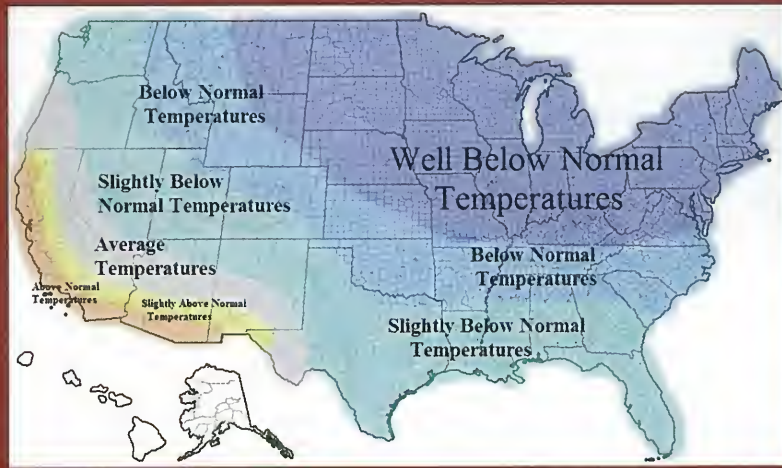

Boston faces more snow than usual when they receive a total of over 100 inches throughout the winter

WIN

2015

RE: FREEZE

TEER

A record-breaking winter chills the US and leaves us with lower temperatures and more snowfall than ever. February 2015 becomes the coldest February on record.

Graduates prepare to receive their diplomas at Fall commencement.

Walking Tall

The Class of Fall '14 graduates

We are incredibly proud to recognize those who graduated after the fall semester. President Hendricks led the commencement ceremony and many proud graduates left with diplomas, ready to be productive citizens. Each of the graduates embodies the creed of Mansfield University in their everyday lives. Congrats to the graduates! we are proud to have been your classmates and colleagues!

Fall Commencement

Holiday Open House

Pictured above is the assortment of food and table spread at the holiday open house. Also pictured above are Andrew Putt and Gloria Troost, two mountie ambassadors who helped with the event.

Pictured above, General Hendricks speaks with two students. Pictured below are students and faculty, enjoying their time at the wonderfully decorated home.

Winter Wonderland

A Jolly Good Time

This past December, the Hendricks' welcomed the students and faculty of Mansfield University into their home. This event helped spread holiday joy across the campus. Between the beautiful decor, to the socializing and snacking, it was a jolly good time. This event was a great opportunity for the students and faculty to speak with the president and his wife. It was a nice kick-off for the holidays on campus.

Holiday Open House

3D Frontiers

Science in the third demension

After recieveing funding from the Tioga County Board of Commisioners, the Mansfield Geoscience Department was able to purchase a high end 3D printer. Printers like the one housed in Belknaop are becoming regular things on college campuses, used by art majors, computer science majors, and even those within the natural sciences. A quick search on your favorite search engine will bring up results such as headlines including 3D printing organs, and other body parts, even the occasional pizza.

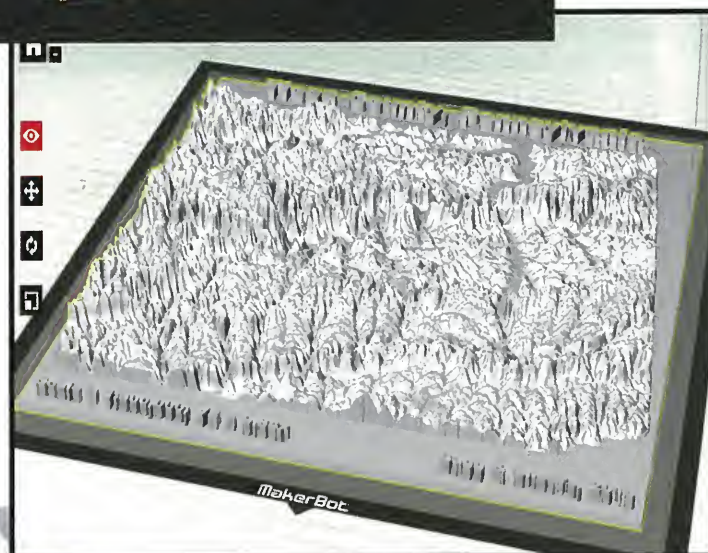

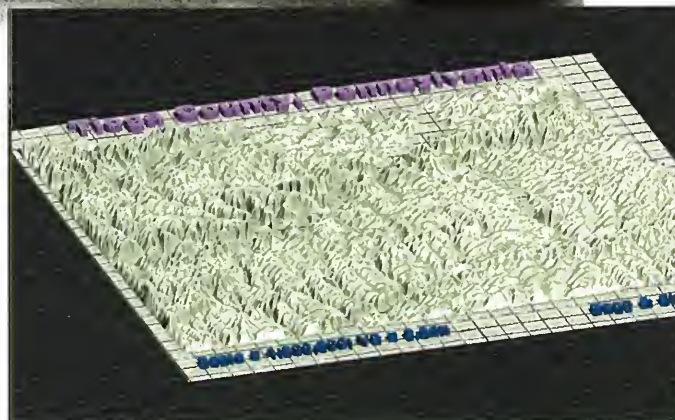

The Geoscience department is using this technology to study the relationship of multiple variables with topograpohy. By using topographic information provided by the Tioga County GIS Department, students and faculty are able to create files that can be converted to 3D printable models. Using this method in tandem with image projections, students and faculty will be able to better study water drainage patterns, and relationships between social variables and land forms.

From top to bottom: A model of Tioga County inside the program 3DS Max. The model is then loaded into Makerbot, then printed out, resulting in tile that's roughly 11 square inches. The tile then has an image of the county projected over it displaying information such as forestation, and watersheds.

A short chain printed by the Makerbot, the process took under 20 minutes.

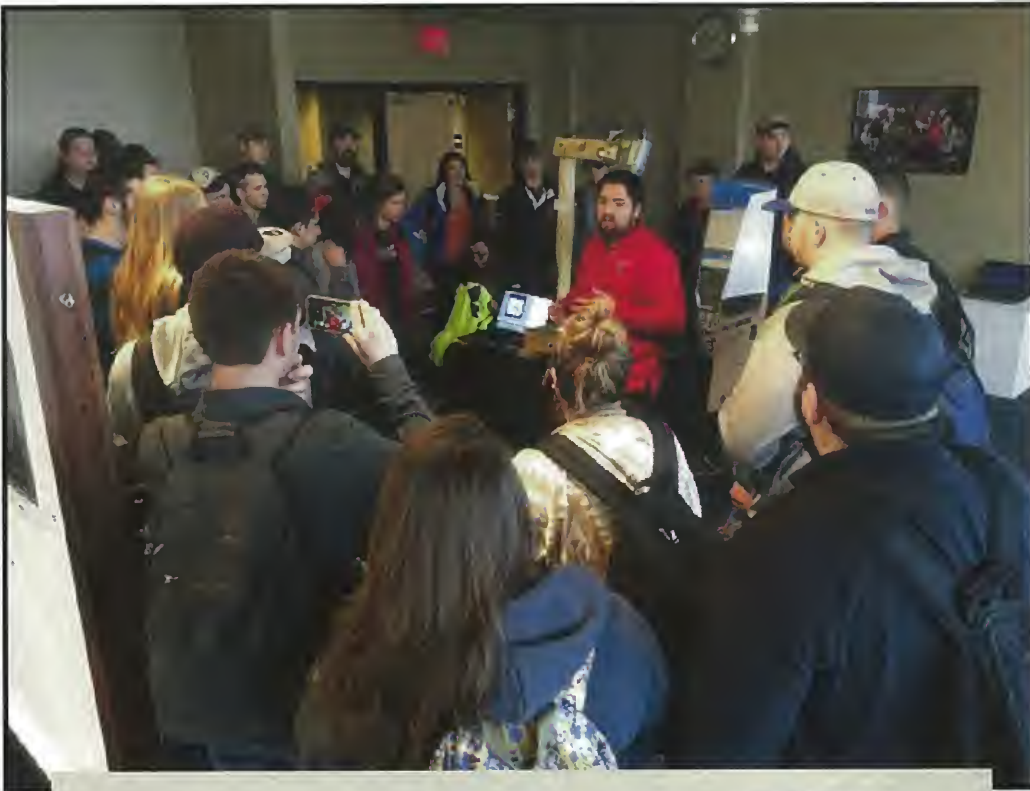

Learn more about Mansfield Universities 3D Frontiers

Another 3D Frontier being explored involves the UAV within the department. Using a computer program, and several hundred arial images taken with the UAV, the department is able to construct a 3D model of the subject using a technique

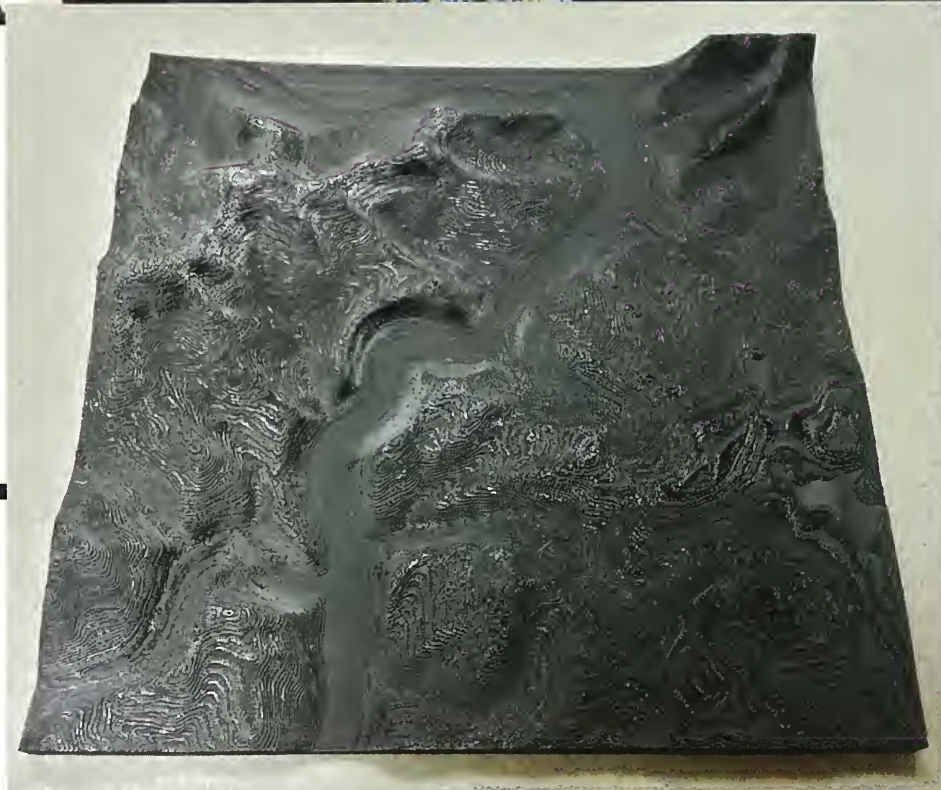

Geoscience student Jonathan Bagg presents his research on using 3D printed maps to study relationships to a group of students in Alumni Hall.

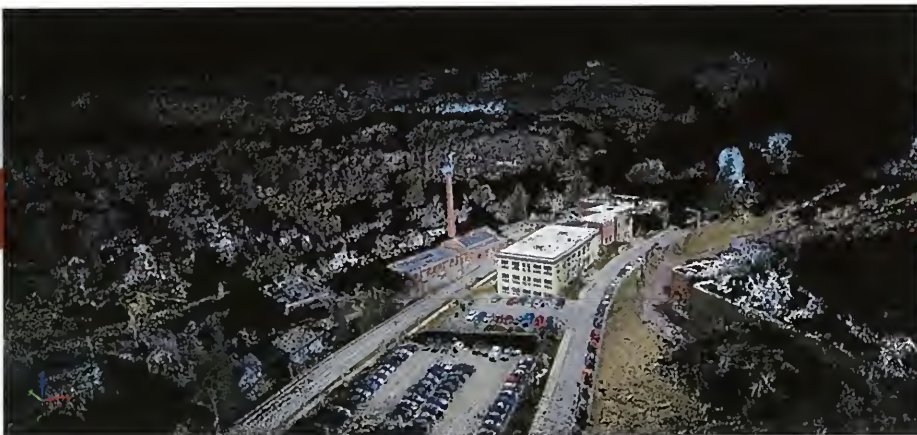

The total presentation measured over 3 feet tall, and involved a projector housed over 2 feet above the printed tile. A power point presentation was projected onto the tile. Each slide was a map of Tioga County that displayed township, forestation, water, and roadway information.

The department has printed out a tile of the Pennsylvania Grand Canyon. The entire series will take 4 tiles, each taking over 36 hours to print.

called photogrammetry. The technique involves matching the subject of one image with the same location on a different image of the same object taken from a different angle. The department hopes to use this technique to develop 3D Models of buildings, and geographic landforms.

1:24000 scale, 1.481x vertical exaggeration, dimensions: 11"x11"x1.25". Location: Pine Creek Gorge ("Grand Canyon of PA"), the village of Ansonia is on the flat part at the top of the map.

Sweet Victory!

The Mens Basketball team was on fire again this season. The team defeated ESU in the picture above, the team travels to opponents within the state, and is one of the most respected teams in the PSAC. The mens basketball team is under the leadership of Coach Rich Miller, and assistant coach John M. Szentesy.

Driving the Fans CRAZY

The student section cheers on their Mountaineer basketball team. The Sound Machine wasn't able to attend this years games, but the fans were still pumped up on the excitement of the team!

Womens Basketball

Under the leadership of head coach Alison Tagliaferri and assistant coach Emma Lacey, the womens basketball team had a great season. The team was very successful and even had the ECAC rookie of the year, Brielle Kelly.

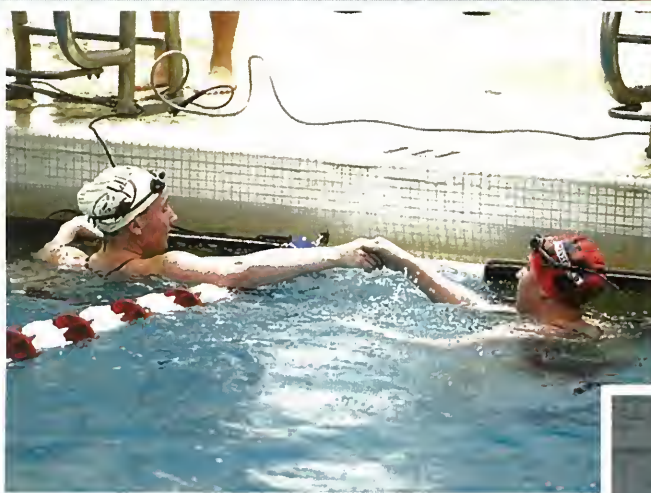

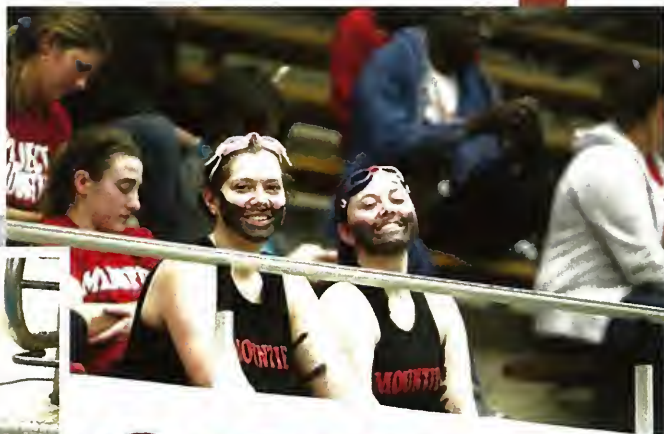

Lets Get Fired Up!

During the games, fans get to go play crazy games and skill activities on the court. Whether it is making a half court shot or throwing toilet paper through a hoola hoop, fans love everything about these games!

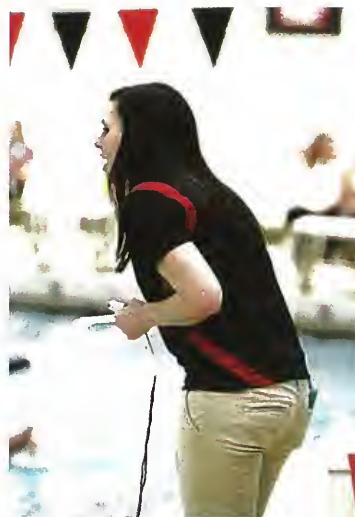

Swimming

CETRA

The Swim Team is like no other sport on campus. They meet at Decker Gymnasium and as a team they take on opponents, but they are all fun and unique people. Who else would paint a beard on themselves. The team swims under coach Kaymee Kelly. The team took on their 4th season under her direction, and it was another great one!

The Winter Track team at Mansfield made everyone proud this year with their stellar performances. Out running the competition, the track team is no stranger to awards and accolades. Infact this year, Senior, Mike Robinson became the PSAC Men's Track Athlete of the Year ... 2014 Mansfield University Male Winter & Spring Athlete of the Year and named indoor team's Most Valuable Player. Coached by Mike Rohl, the team has been competing and winning, and continues to do better each year! Great job track team, and keep out running the competition!

Indoor track

Intramurals

The students way of playing our favorite sports without all the crazy competitive schedules and restricting practices. Intramurals are based out of Kelchner Fitness Center, and are a favorite among students who just love sports as a hobby. Intramurals allow men and women to play competitively with co-ed teams. Intramurals have been gaining interest as well among the less represented sports. Intramurals play each other and the winners are recognized each year.

Grab Some Hot Chocolate and Snow Boots!

Snow Storm Juno

Juno blanketed our campus
with snow in January!

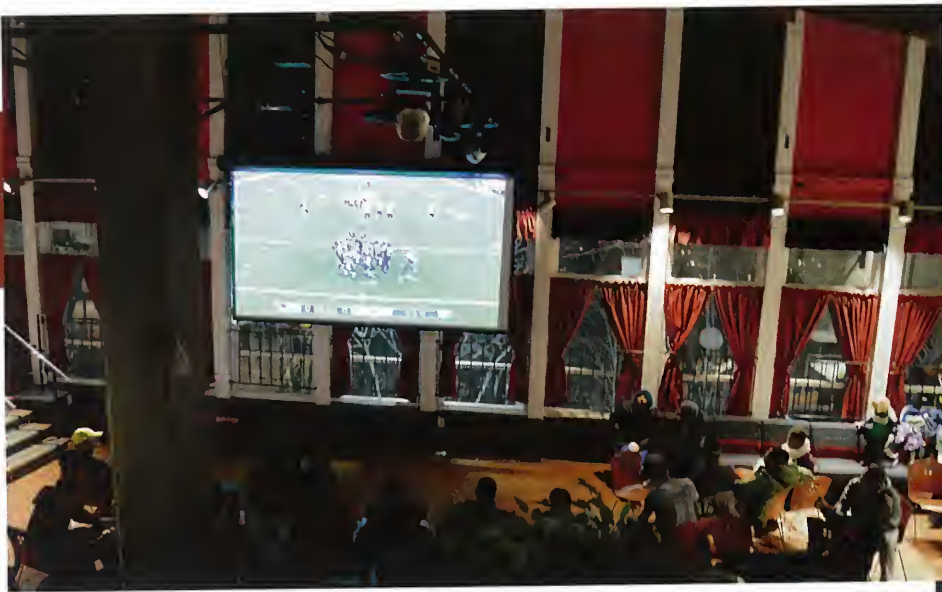

Grab Your Shovels!

Operation Snowflake

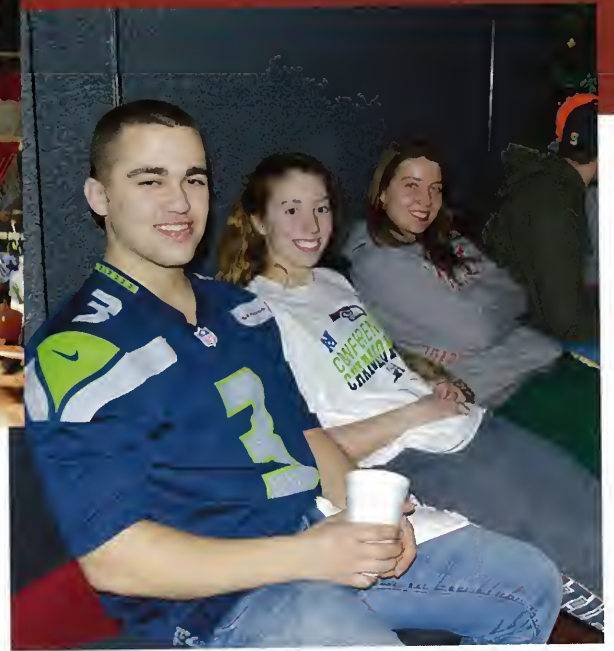

The Community Service Club grabbed their shovels and headed out to shovel the driveways in town. They helped people in town and fought back against the snowstorm. Operation Snowflake was a success!

Featured above are various students, enjoying the game on the big screen. On the right are students sporting their Seahawk pride.

Below are students enjoying food and the game while socializing.

Game Time

Super Bowl Party at The Hut

This past Super Bowl Sunday, RHA hosted a party at The Hut for students to come and enjoy the game. After a nail-biting game between the New England Patriots and the Seattle Seahawks, the Patriots were victorious. With pizza, wings, an exciting football game on the big screen, and great people, it was a fun night!

Super Bowl

Students spend time with each other and with the furry friends from the sanctuary.

Funny Friends

Canine Comfort in Alumni 307

Throughout the fall and spring semesters, the Animal Care Sanctuary brings dogs for students to meet and spend time with. Throughout the day, students can come up to Alumni 307 to relieve stress when they have free time. The most recent day in the spring semester, the sanctuary brought cats as well to spread some joy.

Students stop by to walk and play with the dogs in their free time.

Students enjoy the company of the loving dogs.

Break Time!

Mansfield's Spring Break

Over spring break, many students completed service projects, spent time with friends, and traveled. It is the perfect time to unwind in the middle of the semester!

With 20 wins for the season, this year's team was definitely one to watch! Under the leadership of Head coach Harry Hillson and assistant coaches, Andrew Chalot and Joey Andrews, the team won nearly all non-conference games for the season. With star players the team was a fan favorite once again!

A Proud Tradition of Mansfield Baseball

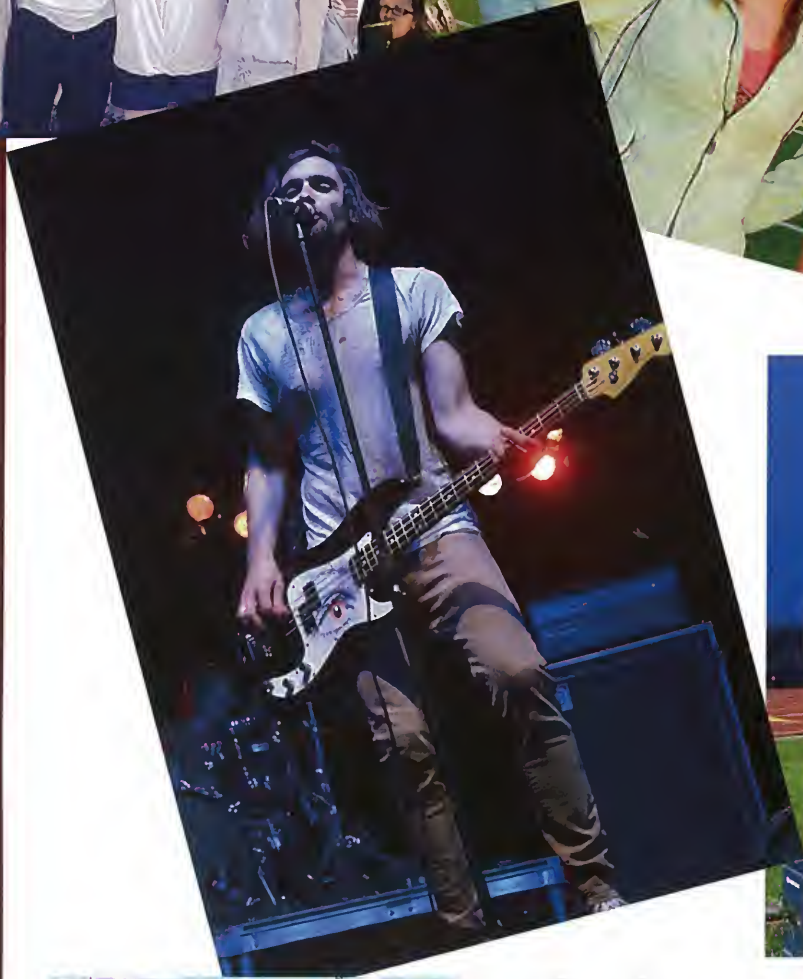

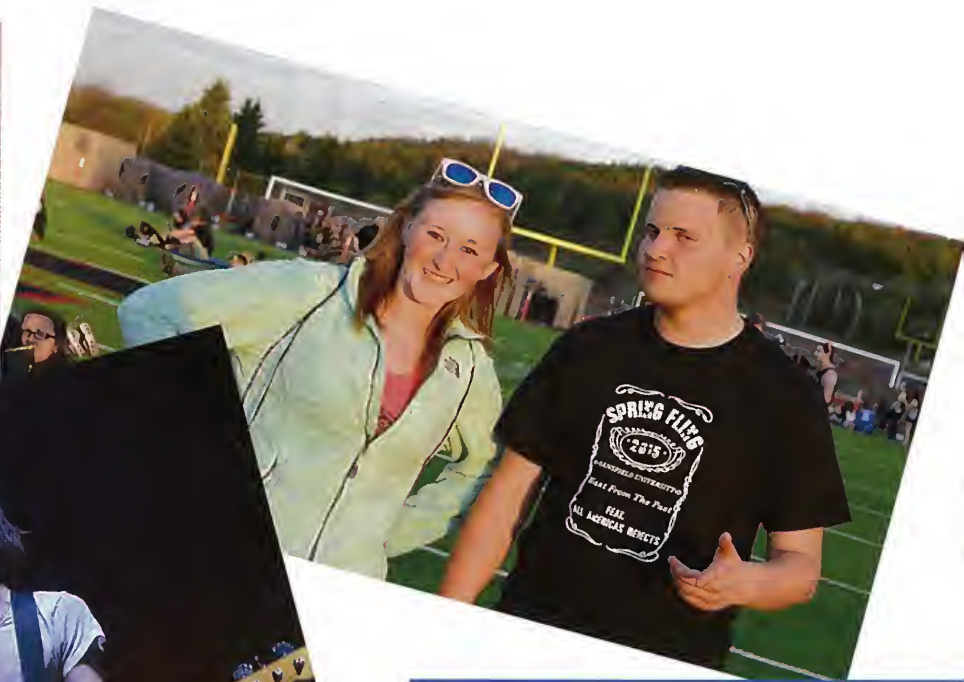

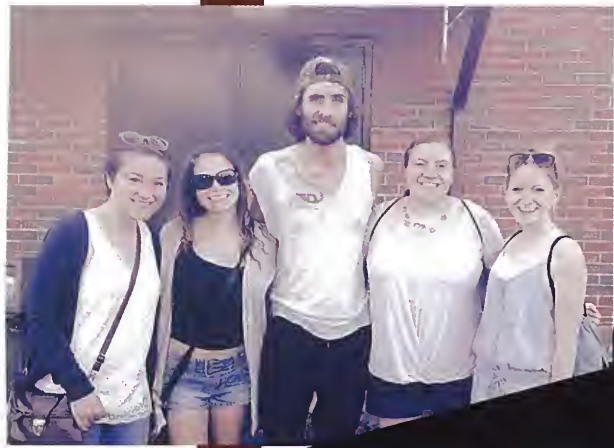

The Mansfield University Softball team, was lead onto the field under the direction of Edith Gallagher, Head Softball Coach and Assistant Coach Angie Hunley. These girls worked incredibly hard with some great players taking to the field, each week!

Softball

Spring Fling

Concerts and Relaxation

The All American Rejects Perform!

At Spring Fling this year, students could enjoy performances from various bands and performers. They could also take part in a laser tag tournament. It was an exciting day to relax before finals. The final performance of the night was the All American Rejects! The concert was a blast and it ended the year with a bang!

Spring Fling

Run Fast, Throw Hard, Jump High

Mansfield University's Track and Field

The track and field team had a great year and they train hard! From sprints, to javelin throws, to pole-vaulting and hurdles, the track team runs hard and does not give up. They utilize endurance and strength to succeed throughout the season.

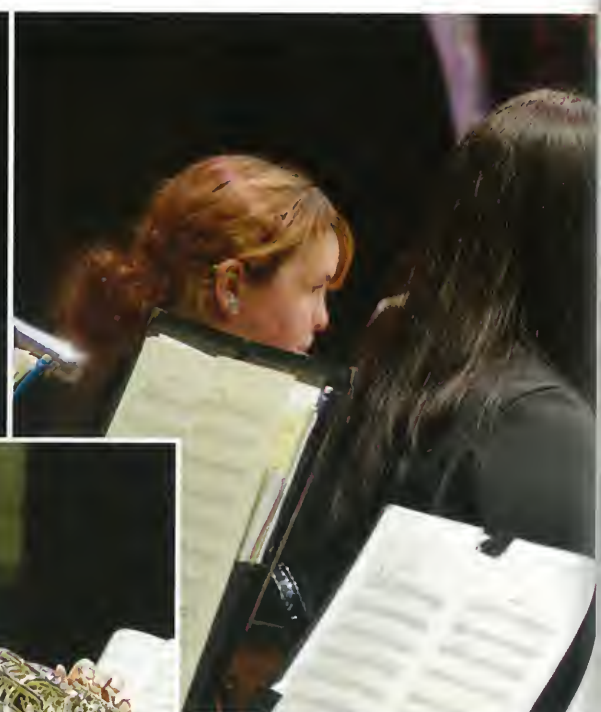

Track and Field

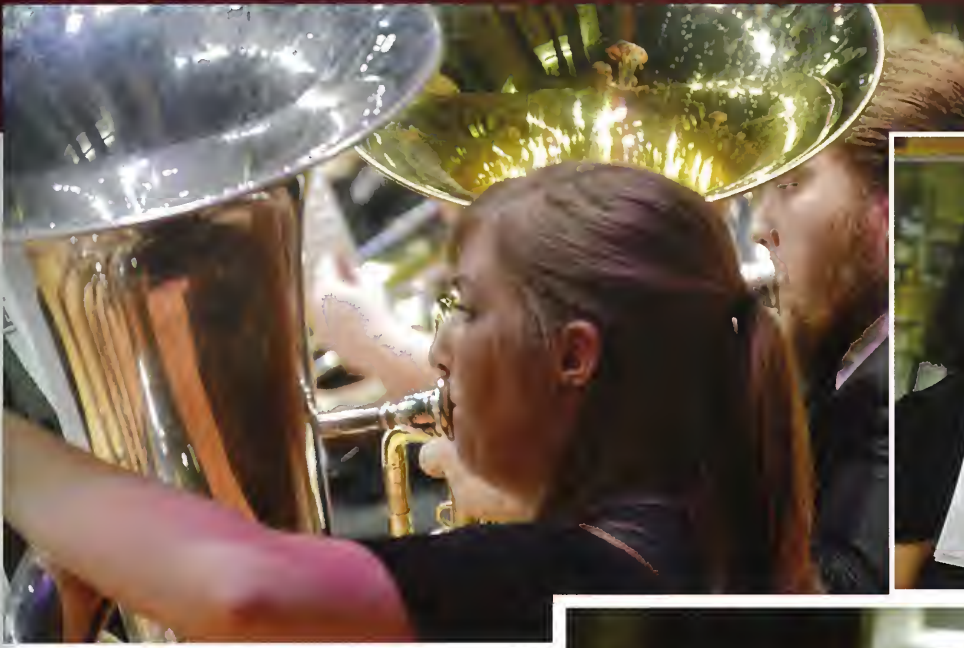

Orchestra

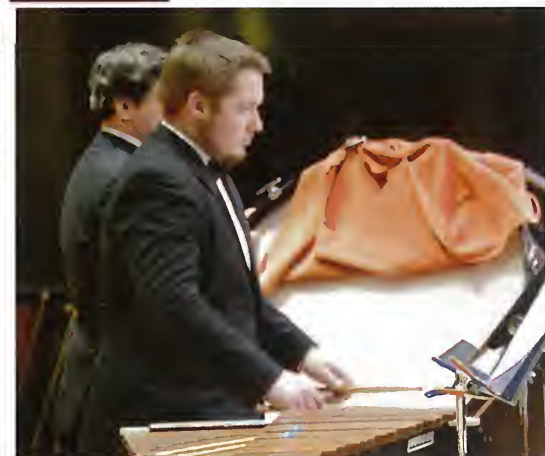

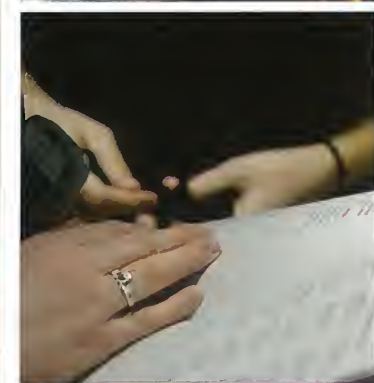

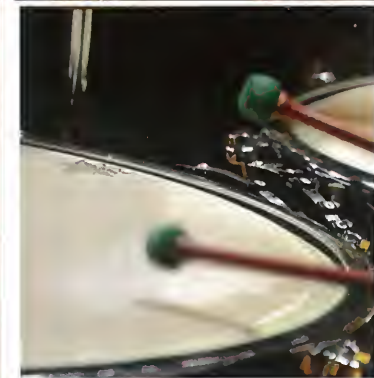

The Orchestra at Mansfield performs at two annual concerts as well as performances at the annual fall prism concert, and the conducting symposium. The Orchestra performs under the direction of Dr. Jeffrey Jacobsen, and primarily performs classical works.

Conducting Symposium

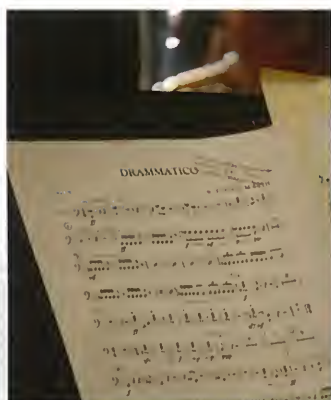

Wind Ensemble, Brass Band, Symphonic Band, Orchestra and Concert Choir all worked on pieces with student conductors who used the experience to develop their technique, and enhance their skills. These student conductors were Junior and Senior students who each worked with the ensemble to create an amazing performance. Each student conductor was given rehearsal time and time during the weekend of the concert to work with their group and their piece. All the conductors did a great job performing during the concert with a variety of pieces from a brass band march to the performance of a concerto piece with the Wind Ensemble.

Spreading Mansfield's music around the state

Under the direction of Dr. Adam F. Brennan the Mansfield University Director of Bands, the Wind Ensemble was nominated for 12 grammys based on their recordings. The group has traveled the state with the Orchestra touring high schools around the area and around the state. An audition only ensemble, the Wind Ensemble features some of the best instrumentalists at Mansfield, and the second oldest Wind Ensemble in the nation.

Wind Ensemble

The Mansfield University Brass Band is a British Style Brass Band comprised of about 25 playing members. The group uses traditional brass band instrumentation, and plays a variety of works such as marches, suites, and contemporary works. In 2014-15 the band was seen by veterans at the VA Hospital in Bath NY, large audiences at all three Prism concerts and featured for the first time with their own concert. The group was most notably seen performing at NABBA where they took home second place in their class.

MU Brass Band Awarded!

In the Spring of 2015, the Mansfield University Brass Band traveled west, to Fort Wayne Indiana. The Brass Band was entered in the North American Brass Band Association's Annual Championships. Stages were set for solo competitions, as well as small ensemble groups. MU's band had smaller ensembles and soloists which all competed at NABBA. The brass band performed a test piece, *Dancing in the Park* as well as two selections of their choice. The group, having never been to NABBA, was pleasantly surprised to win second place in their class, a greatly celebrated accomplishment.

North American Brass Band Association

Brass Band

The Big Event

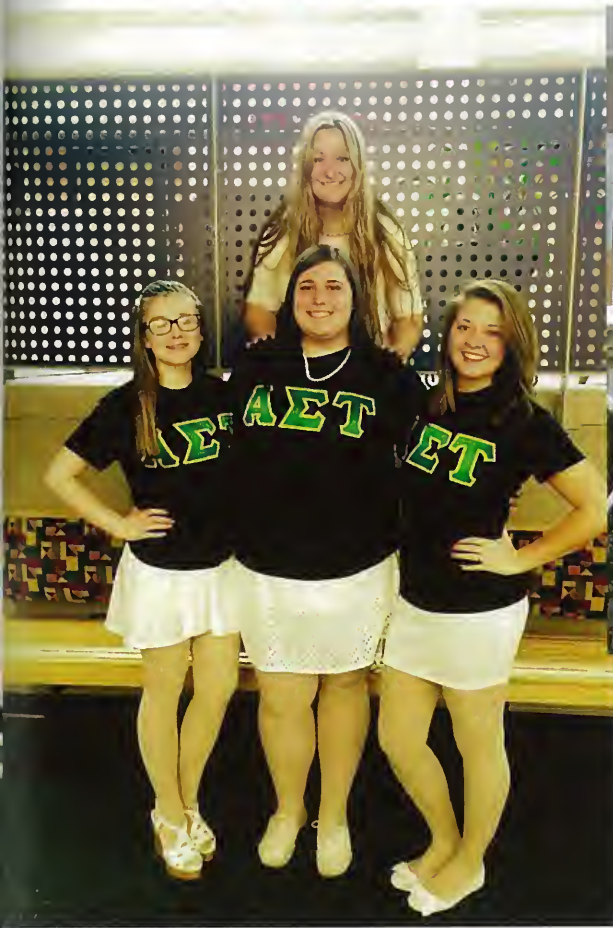

In April of 2015, Mansfield University held the first ever Big Event, an event that got clubs, organizations, greeks, and academics all gathered together in service. Faculty and students alike took to Mansfield to serve the community by cleaning, clearing, washing, and teaching. Students were divided into groups to help with a clothing drive, pull weeds, clean floors at the YMCA and help lead educational events at Mill Cove Nature Conservancy. Students from all over campus participated in this huge ope of a kind event. Many still groggy from Relay for life whioch was held from 5 PM to 5 AM the night before.

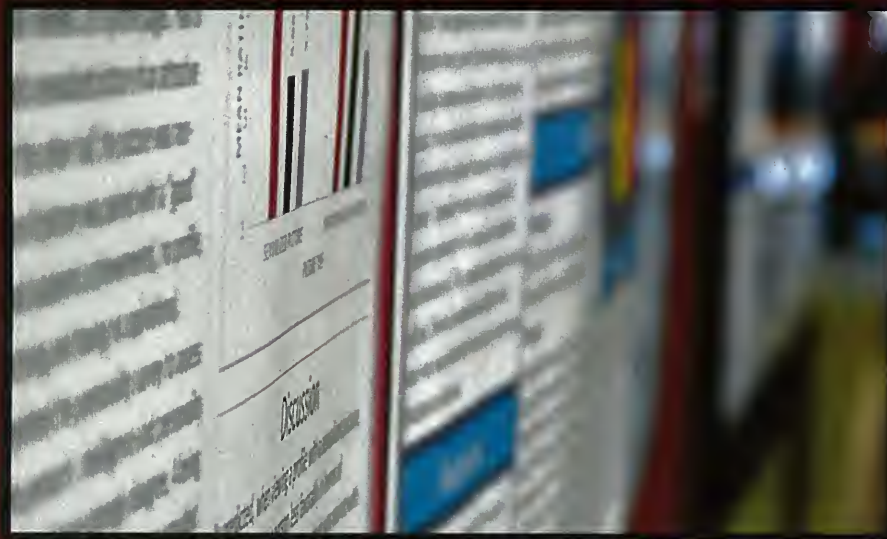

Greeks

*Service, Community, Family.
Greek by choice, Greek for life.*

Campus Greek organizations are all devoted to improving Mansfield, and enhancing the College experience. The greeks range from academic based honors greeks like phi sigma pi to the music greeks like sigma alpha iota. greek life at MU is broken down into service, and social. Nearly every greek organization participated in MU's Relay for Life and the Big Event among others. Most of the Greeks support local and national charities and non-profit organizations, and do fundraisers to raise support and awareness, very notable is Alpha Kappa Lambda's bike-a-thon. Service is also key for many organizations like Kappa Kappa Psi seen in the upper left picking up trash along Rt. 15.

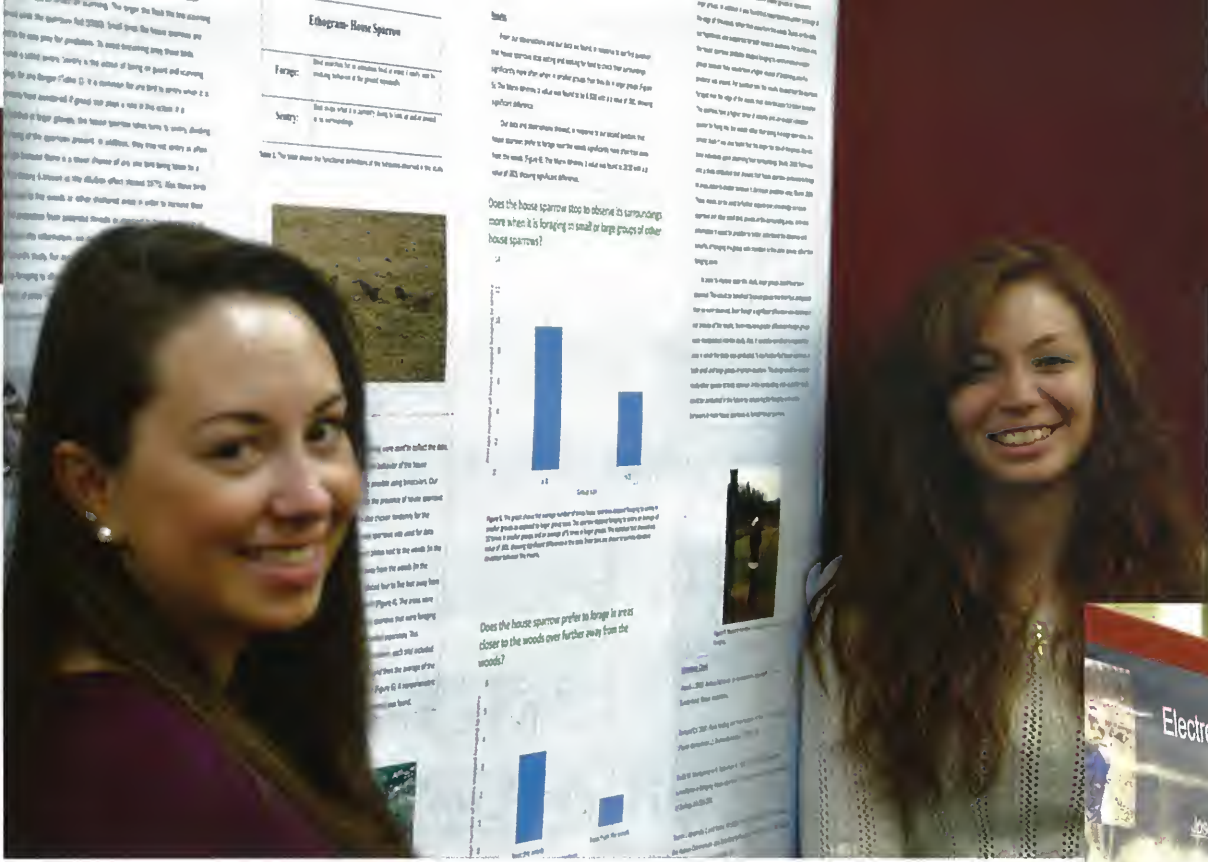

Scholarship Day

From painting and sculpture, to research posters, and 3d models.

The Annual Scholarship day is a celebration of the great accomplishments of Mansfield University Students. However, it is so much more than that, it is an opportunity for students to take in the true effect of a liberal arts education. Strolling the halls filled with art, literature, photography, and research projects all sitting side by side. There is nothing like it anywhere, and no experience that could ever compare.

Spotlight on the Sciences.

Mansfield University requires that every student studying the sciences become acquainted with the practical real-life applications that students will one day face. Students at MU spend hundreds of hours preparing top of the line projects and presenting them at scholarship day as well as a host of other academic outlets. The focus on the sciences at Mansfield continues to bring students from other programs and with a variety of interests. Projects such as animal and human behavior or forensic analysis, they were all on display at scholarship day 2015.

Spring Commencement, 2015

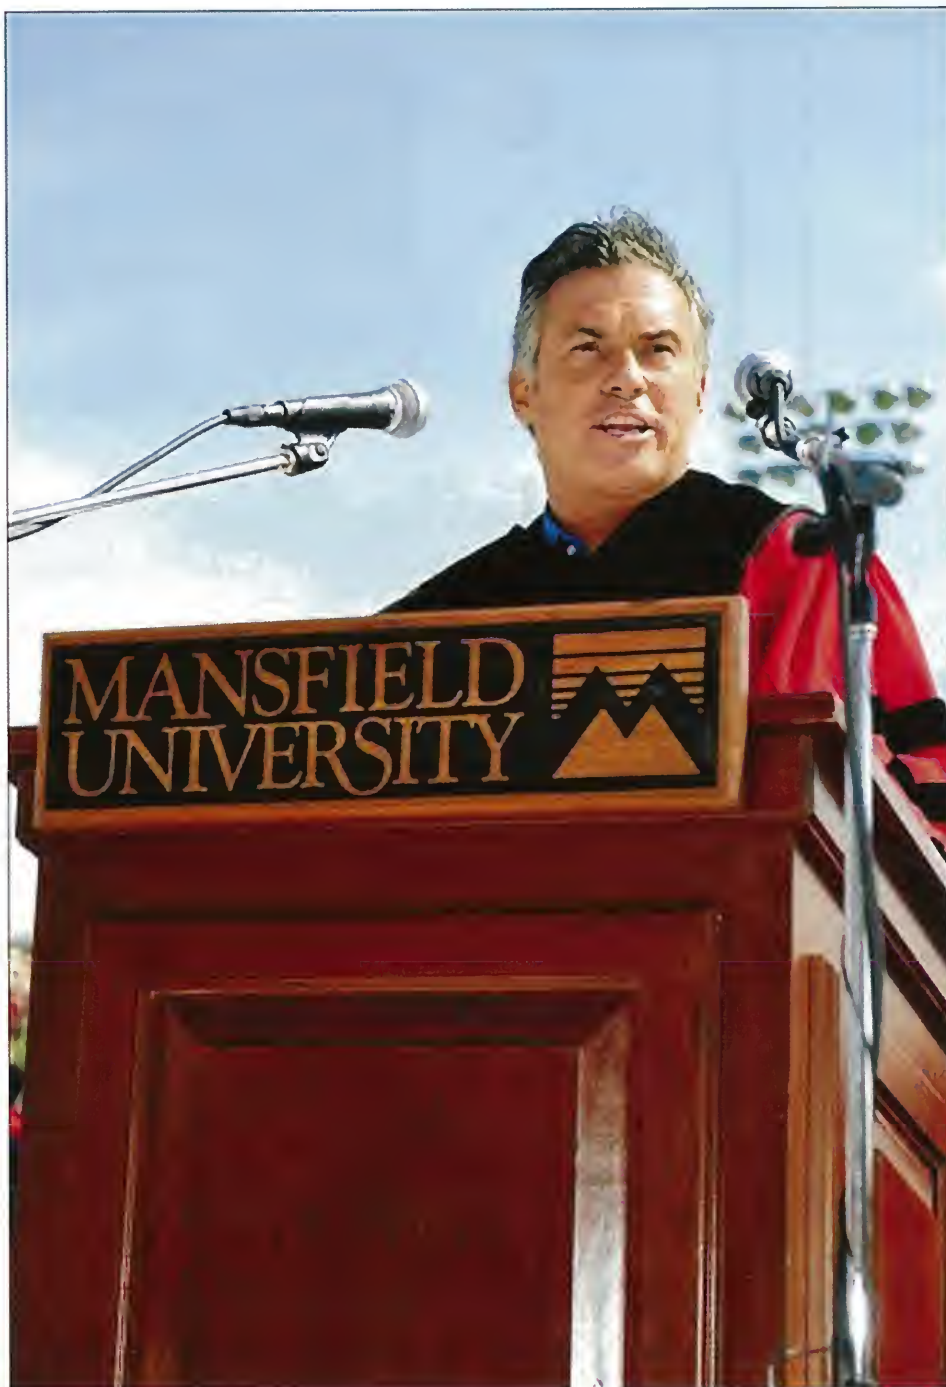

Graduation and Commencement, not the Same Thing

Graduation refers to actually receiving a degree once a student has been certified by the University as having met all degree requirements. You must complete an Application for Graduation online via WebAdvisor no later than one year prior to the anticipated graduation. If you're not sure you completed an Application for Graduation you must contact the Registrar's Office at 570-662-4201.

Commencement is a ceremony. It is an opportunity for students, families, friends, and the MU community to celebrate their academic accomplishments. In order to participate in the ceremony, you have to sign up. If you don't sign up, you cannot walk.

Jim Reese

U.S. Army Lieutenant Colonel (Retired) Jim Reese, a 1989 Mansfield graduate, is founder, chairman and chief executive officer of TigerSwan, an international security and global stability firm. Before founding TigerSwan, Reese served 25 years in the Army and his military commitment began while an ROTC cadet at Mansfield. Reese came to Mansfield in 1982 as a football recruit and joined the Army ROTC program and the National Guard his freshman year. After his junior year, Reese enlisted in the US Army Airborne Ranger Program where he spent three years and rose to the rank of staff sergeant. In 1988, the Army sent Reese back to Mansfield to finish his degree and the ROTC program. He was the Mansfield ROTC cadet battalion commander and was the General Marshall awardee for the ROTC region as the top cadet. Reese graduated in May 1989 with a communications degree and was commissioned as an infantry officer in the U.S. Army.

Creativity Shines

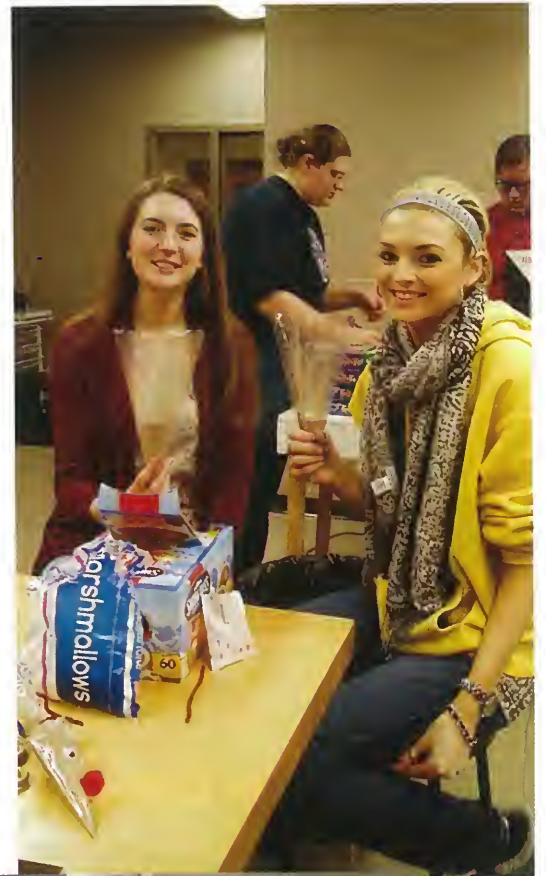

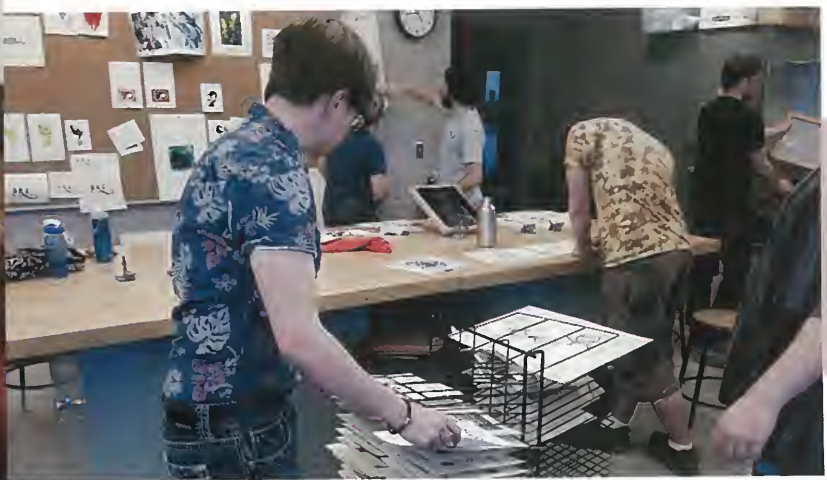

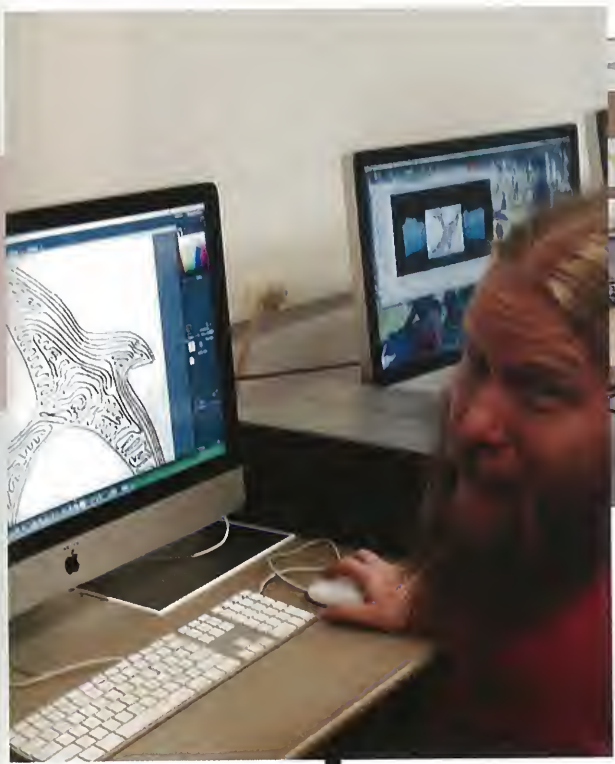

Mansfield University's Art Department

At Mansfield University, there are many opportunities for students interested in the Fine Arts! They can join the Art and Design Guild and take classes in digital photography, graphic design, and art history! There are many areas of focus and students have the opportunity to express themselves through various forms of art!

Don't Judge A Book by Its Cover

*Mansfield University's
English Department*

As an English major, you are exposed to the various forms of literary expression. Majors include Professional Writing and Literary and Cultural Analysis. You can also minor in Creative Writing, Professional Writing, African American Studies, Women Studies, and English Literature. As an English major, you also have the opportunity to join Sigma Tau Delta, the national English honor society.

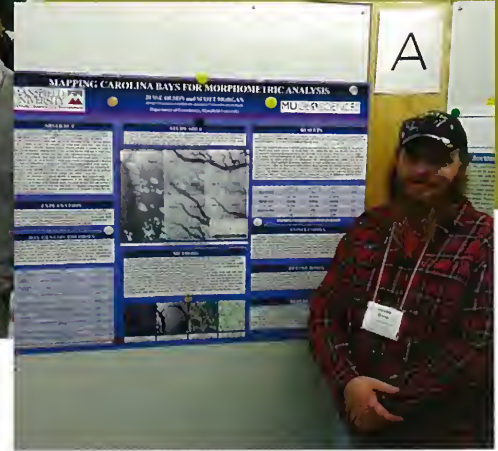

English and Modern Languages

Poetry Outloud was a competition held in Allen Hall in January 2015.

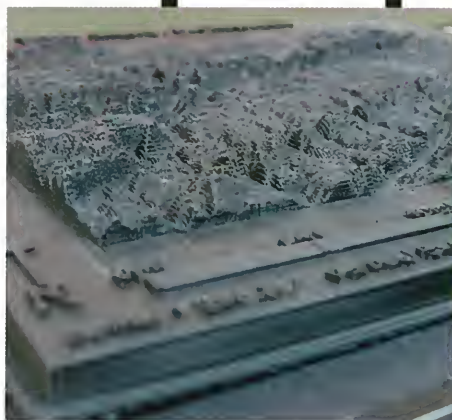

From Geography to Geosciences

Redefining a Department

Geosciences is a growing academic department here on Mansfield University's campus. Many exciting things have occurred within the last year. Pictures that can be found on this page concern the UAV imagery from the Phantom drone or the new 3D printer. These new innovations enable the department to move ahead in the academic world. But there are also many other concentrations that are no less important. The Environmental concentration and Safety Management are imperative to the majors and department itself. Oil and gas are also growing areas of focus in the department.

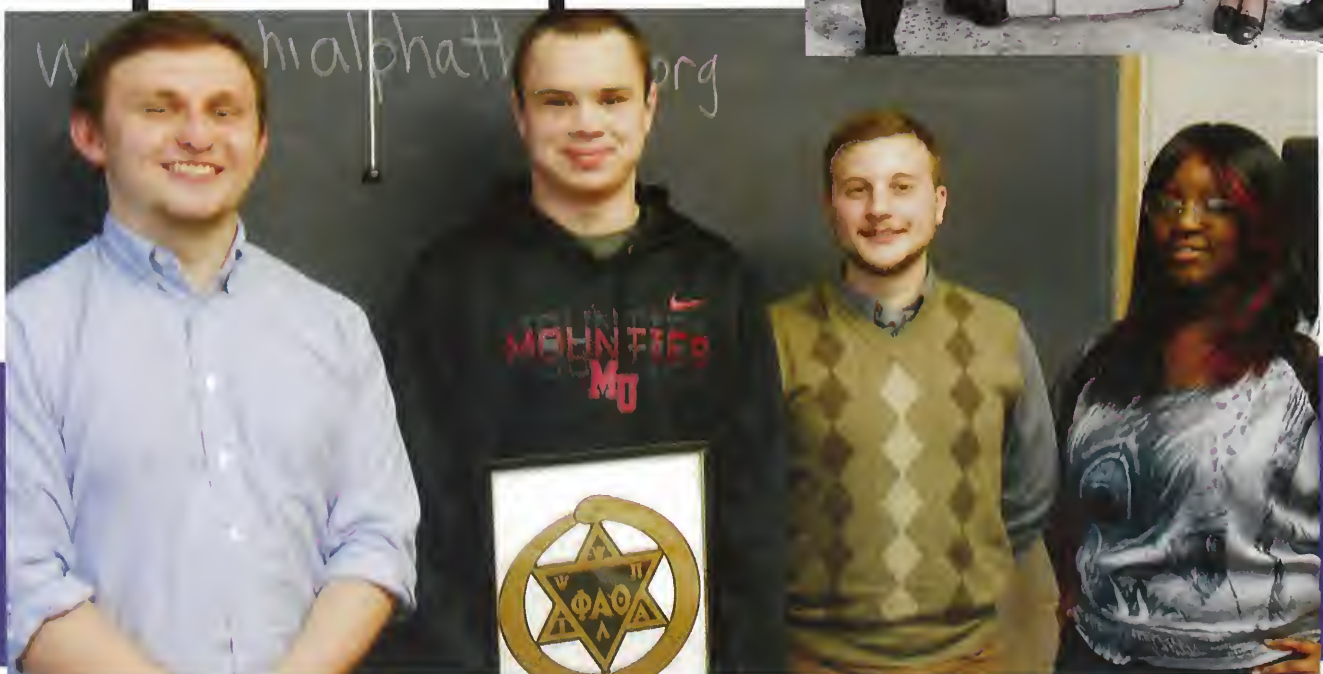

Geosciences

Understanding the Past

Mansfield University's History Department

Dive into the past with this area of study! Majors in this department include: Political Science, Philosophy, and History. Minors include Canadian Studies, International Studies, and Pre-Law. Students can also enjoy the Political Science Club, History Club, and Phi Alpha Theta History Honor Society. Students can also go on trips out of the country like the most recent trip to Belize!

History

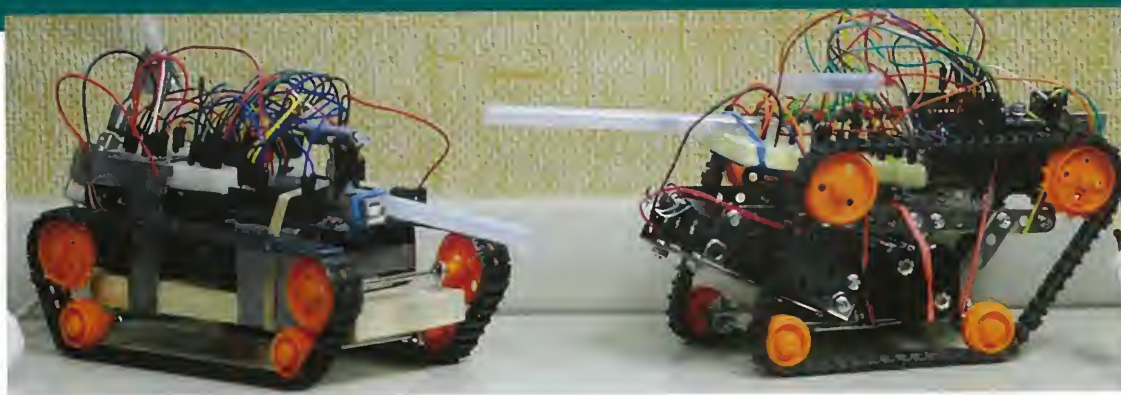

Mathematics Department

At Mansfield University, Students can study Applied Mathematics, Applied Mathematics-Computer Science, or Pure Mathematics.

"The goal of the instructional program in Mathematics is to provide high quality education in mathematics meeting the instructional and professional needs of our students, and to nurture in them an appreciation of mathematics, abstraction, rigor, and justification. Our instructional programs incorporate the standard core topics as well as more specialized areas. Two concentrations are offered, applied mathematics and pure mathematics.

The department seeks to prepare majors and to provide service courses for general education as well as other programs. We aim to prepare our majors both for mathematically related careers in education, government, the private sector, and for graduate studies in mathematics. Our general education mission is to prepare students to effectively use quantitative and symbolic reasoning and analysis in their personal and professional lives, while our service mission to other programs is to provide coherent, effective and efficient courses appropriate to their needs."

Computer Information Science [CIS]

A CIS degree can put you on track for 'hot jobs' in the information technology sector. Our graduates obtain jobs in a wide range of areas in computer and information science. Some of our recent graduates have received jobs in software design and development, systems analysis, web development, E-commerce, system and database administration, networking, as well as other computer-related fields.

The department offers two baccalaureate degrees in Computer Information Science, an associate degree in Computer Information Systems, and three minors in Computer Science, General Computing, and Information Systems.

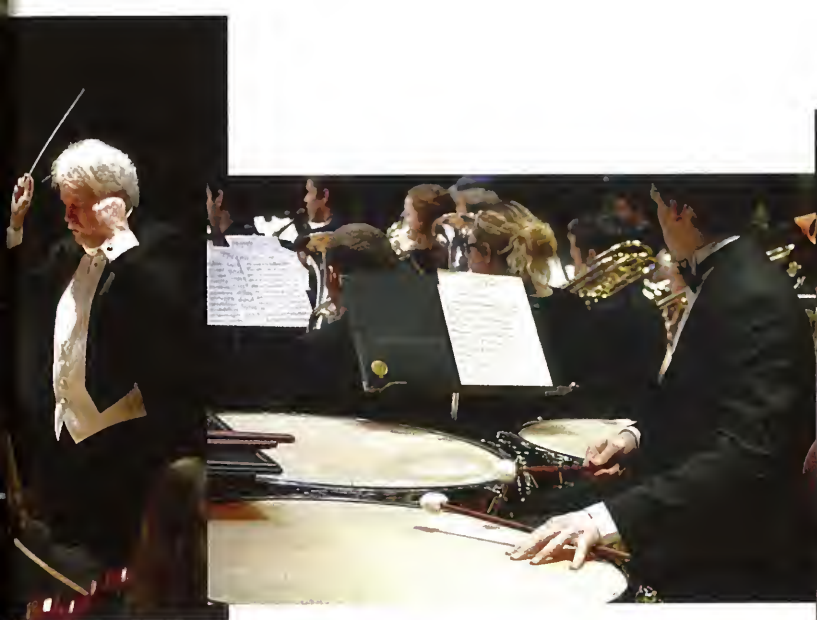

"The mission of the Computer & Information Science Department is to provide an outstanding education to its students in accordance with the principles of the Mansfield University mission, to advance scholarship in key domains of the computing and information sciences, and to engage in activities that improve the welfare of society and enhance the reputation of Mansfield University. The Department aims to maintain an environment that promotes innovative thinking; values mutual respect and diversity; encourages and supports scholarship; instills ethical behavior; and stimulates life-long learning."

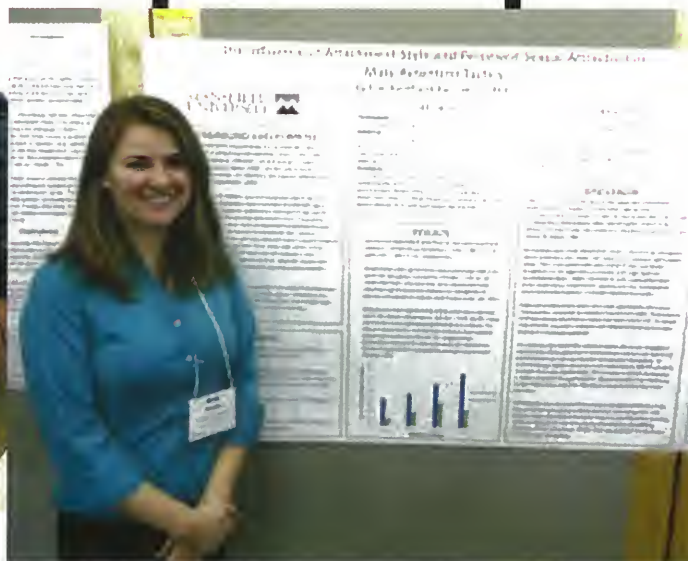

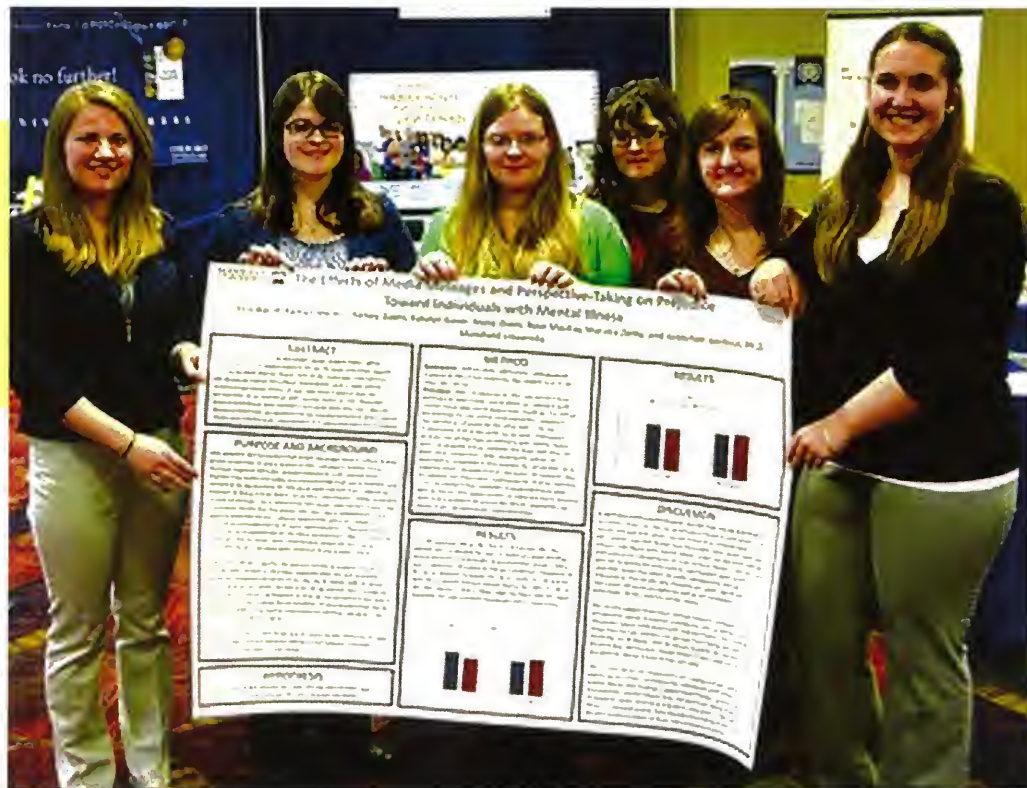

#loveMUmusic

The Masnfield University Music Department, Chaired by Dr. Nathan Rinnert, has a variety of people all with a variety of interests. The Department has some of the most exposure on and off campus of any department at Mansfield. The department features student performers in a variety of ensembles, from small ensembles such as quartets, and quintets to larger ensembles such as Choirs, Wind Ensemble and Orchestra. MU ensembles traveled all over, the Wind Ensemble traveled to local high schools accompanied by the orchestra. The Spirit and the Pride performed at parades, football games and exhibitions across the state. Jazz Band toured schools to perform for potential students. The Concert Choir traveled to Europe to compete in the world Choir games and was invited to perform at Carnegie Hall. The Brass Band traveled to Fort Wayne Indiana to compete in the NABBA championships, and performed locally at a VA hospital in Bath NY. Students are given exposure to professional settings through recitals and the conducting symposium. In addition to exposure in the science and practice of recording and the application of education.

Music

Deeper Meanings

Mansfield University's Psychology Department

The complex science that is psychology is tackled by this department. Within the department there are many concentrations, including: General Psychology, Counseling, Mind/Body Health, Lifespan Development, and Human Resource Management.. A student can complete research within their concentration and present it for publication. There are many clubs to join as well, including: the Psychology Club, the HRMU Club, and Psi Chi. Psi Chi is the national psychology honor society.

Psychology

Best Always Comes from Liberal Studies

Mansfield University's Academic And Human Development

Liberal Studies is a degree program designed to accommodate the students with prior learning credits and those students who wish to have flexibility in designing a program to meet individual personal career interests. Students in Liberal Studies fulfill the University's general education program requirements. AHD or Academic and Human Development also offers counseling services. They also are a learning center as well. The Learning Center is committed to helping students achieve their academic goals.

Academic and Human Development

Business Administration

Business Administration is a math and economics approach to understanding business interactions. The focuses of business administration include accounting, management and marketing. This field is constantly growing. The business administration department is chaired by Dr. Gopalan Kutty. Three Organizations operate exclusively within the Business Administration Department those Organization are Phi Beta Lambda the greek business Fraternity. SIFE which is an organization for college business majors to provide professional opportunities for all business students. As well as CEO, the Collegiate Entrepreneurs Organization, which is very active on campus.

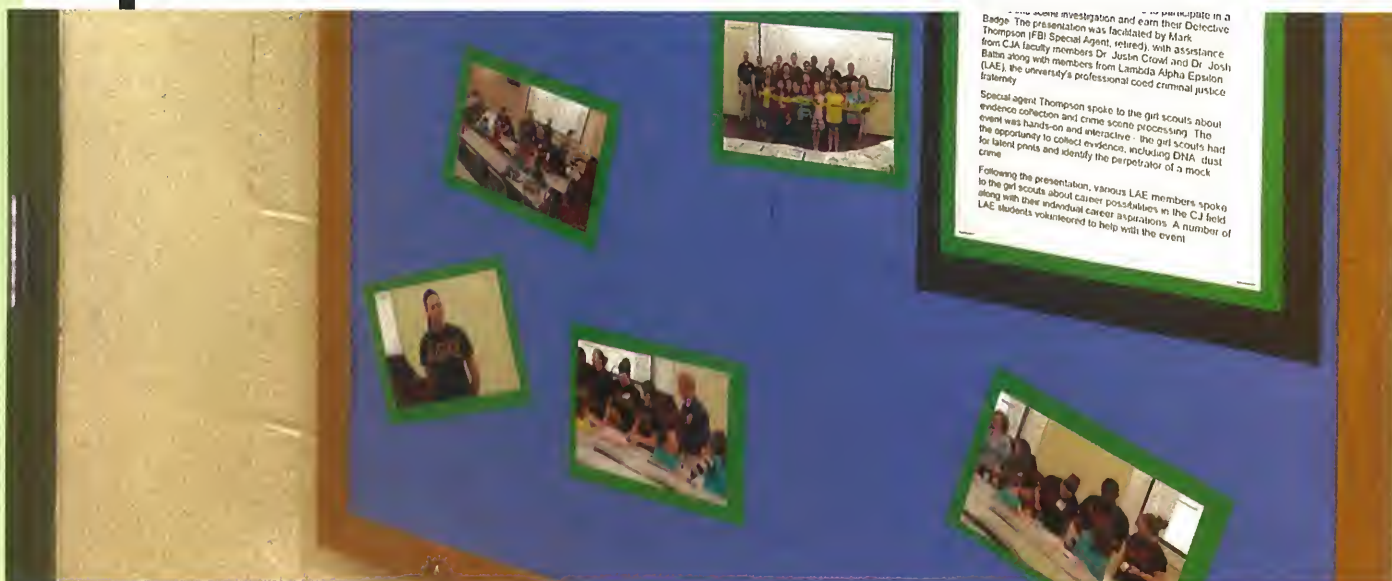

Criminal Justice- its time for Protection

*Mansfield university's Criminal Justice
department*

CJA or criminal justice consists of 33 credit hours of required core courses and 21 credit hours of electives. The required core courses cover the major areas of criminal justice administration. Elective courses represent areas of particular interest. Many of our courses are offered under the "Special Topics" designation. The criminal justice field is one of the fastest growing in the United States. Criminal justice career opportunities are widespread and include professions that range from correctional officers and law enforcement to attorneys and security personnel.

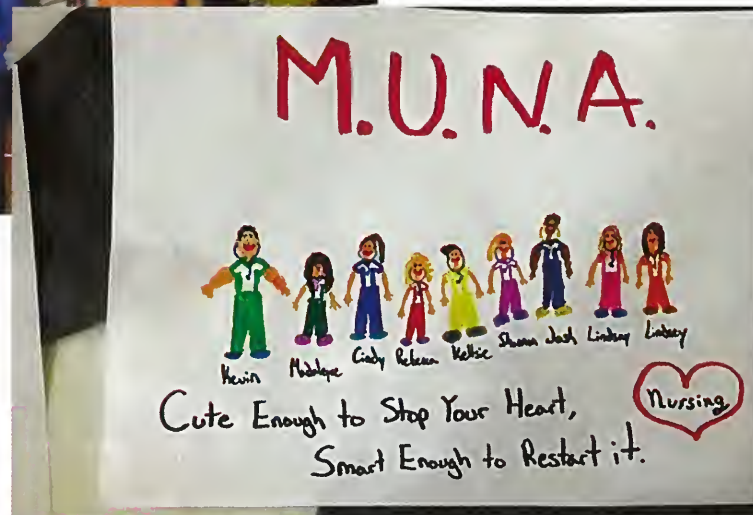

Our Future Teachers

Mansfield University's Education Department

Students learn the methods and knowledge necessary to teach future generations. In this department, students are prepared through courses and teacher observations in the classroom. Mansfield was the first state teacher's college in Pennsylvania and will prepare students to make a difference in their own students' lives. The majors within this department include: Early Childhood and Elementary Education and Special Education. Students can also pursue graduate studies in this department.

High Demand for nurses and Medical Technicians

Mansfield University's Health Sciences

The health sciences are broken up with nursing, Community Health Education, Radiologic technology, Respiratory Therapy. Health educators encourage healthy lifestyles and wellness by educating individuals and communities about behaviors that can prevent diseases, injuries and other health problems. a nursing program, accredited by The Accreditation Commission for Education in Nursing, which blends the resources of a public university and a regional medical center. The Radiology Technology Program is a full-time, two-year Associate of Applied Science (AAS) degree program. The Respiratory Therapy Program is a full-time, two-year, Associate of Applied Science (AAS) degree program. It is a collaborative program with Mansfield University's Department of Health Sciences. Students spend the first two semesters on the campus in Mansfield, PA, and the remaining time at Robert Packer Hospital in Sayre, PA, where they complete classroom and clinical experience.

CUTE ENOUGH TO
STOP YOUR HEART

SKILLED ENOUGH
TO RESTART IT

The dedicated North Hall Library Staff

"We, as the staff, faculty and administration of the Library and Information Resources Division, work with the Mansfield University of Pennsylvania community as partners to create an environment that facilitates research, curiosity, scholarship and student advancement. This joint venture with the University community is a vital prerequisite for building strong and relevant collections (both print and digital), integrating library services and staff into the academic life of students, and maintaining a dialogue on the critical information and Library issues of space, programs, and services."

School Library and Information Technologies

Social Work- families have a purpose

Mansfield University's Social Work Department

The Social Work Program is preparing the most skilled social workers possible. The mission of Social is to prepare social workers in the betterment of society, guided by the knowledge, values and skills of the profession. Consistent with the mission of a small public university grounded in a liberal arts education, we are committed to promoting leadership development through character, scholarship, cultural awareness and service to humanity. The Social Work Program participates in assessment activities that are designed to continually assess and improve the curriculum.

Sociologist- Society is the new order

Mansfield University's Sociology Department

The Sociology program at Mansfield University provides all students with high quality academic, applied and general foundations of learning and real world experience in and through the disciplines of sociology. It introduces general education students to academic skills utilized in the social sciences at the same time as it broadens their conceptual views. We are committed to assisting students in learning to define, analyze, and understand human behavior. Therefore, we are dedicated to equipping all of our undergraduate students with a broad view of the social world that is consistent with the goals of a liberal arts education. The mission of Sociology is reflection of the creed of Mansfield University by recognizing the importance of character, scholarship, culture and service. A few Classes that are offered are Intro to Sociology, contempt in Soc. Problems, and Sociology of Sex and Gender.

Saving Lives, One Step at a Time!

Mansfield University's Health Sciences

Through the Health and Science Department, students can major in Community Health Education, Nursing, and Nutrition. Students can also join the Student Dietetic Association and attend the Food and Nutrition Conference and Expo. Through this department, students can be prepared for a future in bettering lives.

Dr. Robert Maris
Yearbook Advisor

Without your support and continued guidance we would not be where we are. Dr. Bridges you provided us with leadership that is second to none, and stood by this publication every step of the way. General Hendricks, we owe you everything for your support and continued confidence boosts when things got hard. Dr. Maris we would not have even gotten started had you not been there to stand up for us and take us on, despite your already hectic schedule. Your communication skills and prompt action saved us many times. Thank you gentlemen for all of your support, you gave us hope and encouragement for what proved to be a possible task despite all the roadblocks that slowed us down. Without you none of this would be possible.

Sincerely, the Carontawan Staff of 2014.

Crop It Like It's Hot!

Creating a Yearbook!

This yearbook rocks! That's the first thing we want to say about this book. From nights meeting in the Mac Lab in Allen to finishing the book in the library, this year has been a rush. Although there were a few bumps along the way we persevered as a team and made a book to be proud of. As a yearbook staff we would like to offer many thanks for the support of our yearbook endeavors. Our theme as a staff was Guava, Lava, Lake; a combination of colors that sounds like something out of a Dr. Seuss book. But, despite the rhyming name we like the way the colors compliment each other. We believe in the book that we produced and look forward to serving Mansfield University in this fashion for many years to come. In short, the Carontawan is back and ready to be a fixture in Mansfield University again. And we have to say, it's good to be back.

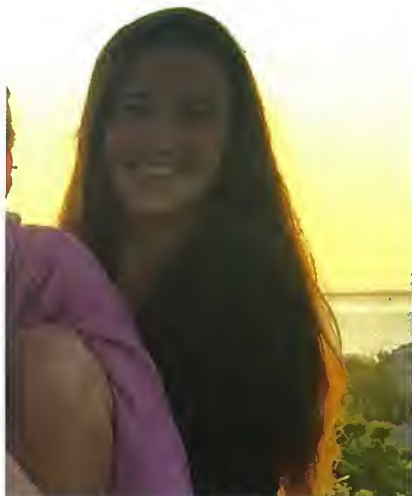

Guava

Lava

Lake

Staff

Hannah Milillo

You always inspired us with your ideas, your visions, and your work ethic. You gave structure to our design section and we can't wait to see what great things you have yet to do!

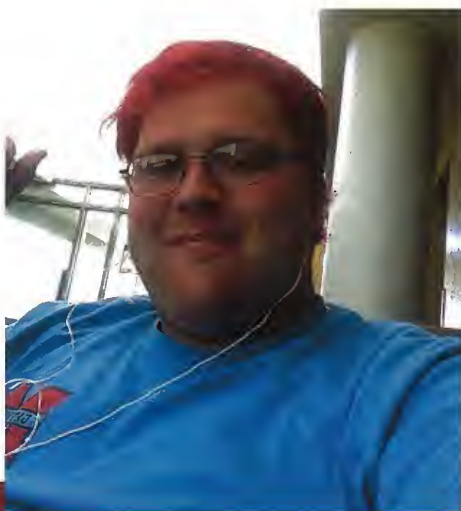

Jessica Towey

What can we say, you saved us. Your work ethic is never ending. You always had more to give and never gave up. When we were discouraged you pushed forward, and gave us strength to do the same.

Adam Leister

I will never forget the snowy day I walked into belknap and saw you completed 3 spreads since we talked. You always had great ideas and I am excited to see you move up in this publication.

Perry Cook

You came in when things were crazy and were always working hard whether it was pages, or making sure events got covered your ambition was hard to match.

Nick Bricknell

You came in at the last minute to help but your quality of work was amazing you were such a great member of our team! Your positivity was always on point!

Amy Plank

Your drive and initiative in developing a P.R. plan was incredible. You always worked hard and got things done! Thank you for being positive and always smiling!

Thanks From the Editors

Josh Trump

You took on our huge task of Public Relations and advertisements and you have set the ground work for our future endeavours into public relations and ads. Thank you for your help and work!

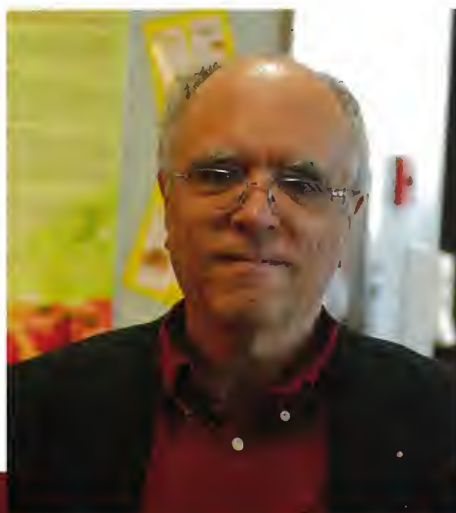

Julie Cooper

You were always reading pages for myself and everyone else. You jumped on board and you weren't afraid to get right into things! Your work ethic and efficiency was great! Thank you so much!

Kaitlyn Callahan

Thank you for coming in at the last minute to help us work on design elements. We appreciate your help with everything. Your drive and experience was what we needed most!

Dr. Robert Maris

Our advisor and our biggest proponent. Thank you for always believing in us and for helping bring this back to MU! You gave us our start and the support we needed!

In the winter of 2013, a group of three Mansfield students, Allison Werner, Sydney Hoffman, and Andrew Pull sat down to start developing a plan for bringing a yearbook back to Mansfield University. The three of them sat down and began planning the structure of a yearbook. They began discussing designs, and drafted a constitution and by-laws. Little did they know that they were a part of something with such a rich history and long past. Those few meetings were the beginning of a long and winding road for the publication. The publication faced a variety of struggles from financial strains, to personnel changes. These were the building blocks of the publication you hold in your hands now. Behind these pages are countless hours of research, work, and devotion. Pushed to the limits at times, the Carontawan staff hopes you enjoy this publication and embrace the rich past that this book encompasses and the deeper meaning of what this book stands for. This publication is not just a story of this year, it is a tribute to the book that for 72 volumes prior to this told the story of Mansfield each and every year.

As this book comes to an close, it is the end of our written story, the long journey that took us from 146 blank pages to a full color book that tells within its pages our story for generations to come. This is an archive of the amazing accomplishments of students, and the major events and stories from 2014. It is important that we also salute each of the students who left a legacy here, and those that will go forward to leave a legacy past the walls of Mansfield. Congratulations to the class of 2015 on everything you have done here and good luck as you move forward. We hope you enjoy this publication and we hope this story can live on for years. On behalf of the Carontawan Yearbook staff, thank you for all of your support students, faculty, and community members without you we could not have accomplished what we did, this speaks as a tribute. A tribute to what devoted college students can accomplish, and what we can do, united together as a University, Community and as a staff.

Warmest Regards,

Andrew Putt

Co-Editor-in Chief

to the printing office and see the first pages of this book.

April 12.—Betty Lane Shepherd recital. Great!

April 20.—The mysterious Y. W. Faculty meeting in Alhambra. Harley closes window and forgets where Feriela sat.

April 21.—Floods of rain and church services.

April 22.—Carontawan Staff meeting. "Day" away; we all preside. Assistant Business Manager discusses "politics" in Borch Hall afterwards.

April 23.—Real speaking at last.

April 24.—More proof from printer. Reception "soon very busy."

April 25.—Agony—guitar! plays wrong time in Y. W. meeting.

April 26.—"The Prince Chap." Most wonderful play. Great!

April 27.—Saturday. Bread baking, and more sunbathing; also first basketball game. Score 18-2. Hurrah!

April 28.—Sunday! Johnny and Agatha do acrobatic stunts on the corner of the campus after Vespers.

April 29.—We parade for the Third Liberty Loan and Lieut. Micht speaks.

April 30.—We learn that "The Clinic" is on: Commencement play.

May 1.—Play is cast and parts assigned.

May 2.—Doctor's talk on Responsibility in chapel.

May 3.—Business Manager informs us "Chronicles" were sold.

May 4.—Friday, gym social, etc. Pennsylvania Program and the Chronicles go to press. Hurrah!

Where we begin again from...

CARONTAWAN YEARBOOK 1990

This 72nd volume of the Carontawan was printed in the Fall of 2015 in Clarksville, TN by Jostens International. The Carontawan was published under the direction of editors-in-chief Jonathon Bagg, and Andrew Putt. The Carontawan yearbook was designed under the capable direction of Design staff, Hannah Millilo, Adam Leister, Jonathon Bagg, Kristin Litz and Jessica Towey. The Cover design was based on the designs of the 1987 yearbook, and the artwork of Jessica Towey. The Cover digitization and Ripped theme was completed by Andrew Putt. The book's articles, quotes, and captions were written by Julie Cooper, Nick Bricknell, Jessica Towey, Adam Leister, Hannah Millilo, Jonathon Bagg, Andrew Putt, Amy Plank, Joshua Trump, Perry Cook and Kaitlyn Calahan. Photographs were taken by registered Replay-it users Mansfield University Staff, and yearbook staff members; Jessica Towey, Jonathon Bagg, and Andrew Putt. Videos and Photos were uploaded, edited and cataloged by Andrew Putt for the digital timecapsule. The Carontawan yearbook staff from 2014-15 have provided this book for use by Mansfield University and any use that is for the good of the University, its students, faculty, and affiliates.

As Pennsylvania's premier public liberal arts institution, Mansfield University offers students a personalized education that emphasizes character development, scholarly growth, cultural awareness, and community service. By preparing our students for productive careers and meaningful lives, we positively influence the world.
